

PURBA BARDHAMAN DISTRICT AT A GLANCE

The name Burdwan is the anglicized form of Barddhaman. (also spelled as Burdwan or Burdhman) is a district in West Bengal.

There are two schools of thoughts about the name Barddhaman. It might have been named after the 24th Jaina Tirthankar. According to Kalpasutra of the Jains, Mahavira spent sometime in Astikagram which was formerly known as Barddhaman. According to the second school, Barddhaman means prosperous growth centre. In the progress of Aryanisation from Upper Ganges valley, the frontier colony was called Barddhaman as a landmark of growth and prosperity. The name came to stay as the Aryans failed to consolidate their gains further east.

District : Purba Bardhaman, State : West Bengal

Social & Resource Map Showing River System of Purba Bardhaman District

The main towns of the district is Burdwan, Kalna & Katwa
Geography: Total Geographical Area: 5432.69 sq. km.

The district extends from 22°56' to 23°53' N latitude and from 86°48' to 88°25' E longitudes. Lying within Burdwan Division, the district is bounded on the north by Birbhum and Murshidabad, on the east by Nadia, on the south by Hooghly, Bankura and Purulia and on the west by Paschim Bardhaman districts.

RIVERS :

The river system in Purba Barddhaman includes the Bhagirathi-Hooghly in the east, the Ajoy and its tributaries in the north and the Dwarakeswar, the Damodar and its branches in the south-west. Besides, there are innumerable Khals and old river beds all over the area.

WATER RESOURCES :

There are many tanks, wells, canals, swamps and bils are found all over the district. Within the Damodar Valley region, there are around 17000 tanks. The Durgapur barrage and Mithon dam have formed two large reservoirs at the south-western and western periphery of the district.

FOREST :

The forest areas of the district are chiefly situated in the lateritic and red soil high lands in the Aushgram PS of Sadar North Subdivision. In Ausgram P.S. the forest areas are interspersed with paddy fields.

FISHES :

The rivers and rivulets which pass through the district of Barddhaman, the Ganges (Bhagirathi), the Damodar, the Banka, the Ajoy and the Khari constitute the fisheries of some importance. Out of these rivers, only the Ganges maintains the flow of water throughout the year. The flow of Damodar depends entirely upon the discharge of water by DVC from its barrages. The other rivers practically dry up in hot months when fishes accumulate in depressions here and there to catch indiscriminately by the fisherman.

CLIMATE :

The district experiences a climate which is : Average temperature in hot season is 30°C while at the cold season is 20°C. And average annual rainfall is 1417 millimeter.

The cold season starts from about the middle of November and continues till the end of February. March to May is dry summer intervened by tropical cyclones and storms which although infrequent are notable features of the weather and climate of this district. June to September is wet summer while October and November is autumn.

AGRICULTURE :

On an average about 58 percent of the total population belongs to the agricultural population while the non-agricultural sector accounts for the remaining 42 percent.

The eastern, northern, southern and central areas of the district are extensively cultivated. Rice is the most important crop of the district. Paddy covers maximum of the gross cropped area. Among commercial crops, jute, sugarcane, potato and oilseeds are major crops. Productivity of the major crops grown in the district is indicated below. Major cropping patterns include paddy-wheat-vegetables, paddy – potato – sesame, paddy – vegetable – mustard and jute – paddy – vegetables.

Due to climate condition, geographical location and industrial belt areas Purba Bardhaman district faces various disaster throughout the year. The major thrust is being given on ‘flood’ as it causes maximum damage and loss of property and human lives. Some cases of Arsenic hazard are being studied by the Public Health Engineering Department.

TYPES OF DISASTERS: (EXPERIENCED IN THE DISTRICT)

| Common Natural Disasters | Man Made disasters |
|--------------------------|----------------------------|
| ❖ Cyclone | ❖ Fire: House/Hut |
| ❖ Flood | ❖ Accident : Road/ Railway |
| ❖ Drought | |
| ❖ Hail Storm | |

CHAPTER-I: INTRODUCTION : AIM, OBJECTIVES, STAKEHOLDERS THEIR RESPONSIBILITIES, EVALUATION OF LAST DDMP (PROCEDURE & METHODOLOGIES)

➤ Aim:

The District Disaster Management Plan is the outcome of the Disaster Management Act of 2005 wherein Section 25(1) of the plan it is mentioned about the formation of the District Disaster Management Authority and in Section 31(2) states the formation of the District Plan.

The District Disaster Management Plan (DDMP) aims to reduce and avoid the potential losses from hazards. It is a consolidated guidelines and plans of the District Disaster Management Section in collaboration with the line department in addressing disaster situations.

Disaster Management means a continuous and integrated process of planning, organising, coordinating and implementing measures which are necessary for minimise the losses of human lives, livelihoods and assets and assure prompt and appropriate assistance to victims of disaster and achieve rapid and effective recovery.

➤ Objectives:

- The purpose of this plan is to establish procedures for implementation prior to, during and following a natural or man-made disaster.
- The plan gives primary consideration to require actions necessary to protect the property, human lives, livestock etc.
- Mitigation or reduction of risk of any disaster or its severity or consequences,
- Capacity Building among stake holders, community, PRI Bodies etc.
- Preparedness to deal with any disaster.
- Prompt response to any threading disaster situation or disaster.
- Assessing the severity or magnitude of effects of any disaster.
- Evacuation, rescue and relief.
- Rehabilitation and reconstruction.
- Develop more economic activities for creating more employment.

➤ Stakeholders with their responsibilities:

| Sl. No. | Name of the Nodal Department | Responsibility |
|---------|------------------------------|--|
| 1. | ARD | <ul style="list-style-type: none"> ❖ Advance planning to keep all departmental staff alert before the onset of the season and their subsequent deployment in the eventuality should be through deployment planning and necessary strengthening. ❖ Arrangement for procurement and storage of essential inputs like medicine, vaccine, feed, fodder, disinfectants , water purifier etc. to save the affected livestock, to be made. ❖ Director of Agriculture Department/ Deputy Director, Agriculture (Admn.) of the district to be requested to keep the paddy straw in stock for the anticipated calamity. ❖ Managing Director of DAIRPOL to be requested to keep reserve the concentrate. ❖ Animals in endemic zone, to be vaccinated against different bacterial and viral diseases as the case may warrant, e.g. Anthrax, H.S.,B.Q., P.P.R, Goat Pox,R.D., F.C., F.P., etc. ❖ Identification of vulnerable areas and livestock shelters. ❖ Arrangement to be made for opening control room at |

| | | |
|---|-----------------------------------|--|
| | | <p>District/Sub-Division/Block level and Veterinary team to be kept ready to proceed promptly along with medicines.</p> <ul style="list-style-type: none"> ❖ Finalisation of rate for procurement of paddy straw locally by inviting quotation at Block/ District level. ❖ District Administrative Authority and Panchayat functionaries at various levels to be contacted in regular manner to have updating information for calamities and guideline to aware the farmers. ❖ Carcass disposal if required after any disaster will be done by the officials posted at grass root level. |
| 2 | Irrigation & Waterways Department | <p>A disaster is a sudden calamitous event that seriously disrupts the functioning of society. It causes human, material, economic and environmental losses that exceed the society's ability to cope up using its own resources. Disaster is a natural phenomena which results in great damage or loss of life. It is accompanied by loss of livelihood or property causing great human suffering and loss in a definite area.</p> <p>Disaster management plan comprises disaster prevention, mitigation measures, response and recovery from the dangerous situations. All of these heads of disaster management depend on the nature of hazard and vulnerability of the community.</p> <p>Irrigation & Waterways Department is mainly entrusted with flood and draught like disaster. Onus of prevention and mitigation measures is solely lies on this department. As it is natural calamity, so it could not be prevented but degree of damage /loss may be minimized by proper management. In case of flood due to excessive rainfall ,the rain gauge stations at concerned stations are properly monitored and probable discharge through flood routing is communicated to all concern before hand in order to shift the vulnerable at safer places. The areas which will be submerged are identified for evacuation along with danger levels of the rivers to be communicated to all concern at real time basis. Moreover these datas are broadcasted by Social media, Television, Radio etc. for wide coverage. The embankments/banks of rivers are to be properly maintained to avert any breach type situation and close vigil is kept during flood discharge on the health of embankment.</p> <p>Regarding prevention and mitigation measure, Deptt identify the vulnerable zones of embankments and status of congestion of drainage channels after monsoon. Take necessary action to repair them before next monsoon. Reservoir authorities are also directed to fix up the water level of reservoir as per guide curve of the reservoirs to mitigate the flood disaster affect due to excessive rainfall.</p> <p>Regarding reconstruction, rehabilitation and recovery measures, the damaged portion of the embankments, bridges, canals are identified after the recession of flood water and restoration works are taken up immediately and completed before the next disaster at the same monsoon.</p> <p>Irrigation and Waterways Department is entrusted with the task of providing irrigation facilities, offering reasonable protection against flood, alleviating drainage congestion, arresting erosion, maintaining internal navigation channels and up-keeping the natural</p> |

| Medical Officer | | 38 | 115 | | | | | | | | | | | | | | | | | | | | | | |
| Nursing Staff | | 211 | 298 | | | | | | | | | | | | | | | | | | | | | | |
| MPHW | | | 1125 | | | | | | | | | | | | | | | | | | | | | | |
| | PHE | <p>During flood disaster, production and supply of water pouches will be made to the affected areas Water supply through tankers, jarican etc. will also be done to the affected areas. Temporary restoration of piped water will be done immediately by the departmental official. Capacity building and community awareness generation activities will be done during pre monsoon Water quality monitoring of sources in the affected areas will be done by testing in the laboratory available in the localities. disinfection of flood affected tube wells as well as raising of tube wells heads will be done by the department official</p> | | | | | | | | | | | | | | | | | | | | | | | |
| | Agriculture Mechanical Deptt. | All the RLI & DTCs will be kept serviceable condition after any disaster for supply of irrigation water. | | | | | | | | | | | | | | | | | | | | | | | |
| | Gram Panchayat | Gram Panchayat will play a pivotal role in disaster management. The impact of disasters on people living in vulnerable areas and losses to their property can be minimized by a pro-active role played by PRIs at the grassroots level. Responsibility for dissemination early warning of any disaster event will be perform by the PRIs bodies. During assessment of any loos, assistance to the Govt. official will be rendered by the PRI members. Moreover during flood distribution of dry food & cooked food will be done by PRIs member | | | | | | | | | | | | | | | | | | | | | | | |
| | Agriculture & Horticulture Department | <p>Joint monitoring by District level Officers of the department of Agriculture, Irrigation & Waterways and WRIDD to be done to look in to the real situation and to find out the ways for supplying Irrigation water from all irrigation sources and ensuing it at grass root level in the blocks water harvesting structures like pond dug well etc to be excavated for storing rain water by the departments. Agriculture department is trying to popularise micro- irrigation</p> | | | | | | | | | | | | | | | | | | | | | | | |

| | | |
|--|----------------------|--|
| | | <p>systems like drip irrigation, sprinkler, rain gun etc. Huge numbers of pump sets to be provided to the farmers from ongoing department scheme. WBSSC District Manager should supply sufficient quantity of seed if required. If flood is occurred, joint inspection by Agriculture & Horticulture Deptt. Official will be done quickly to assess the losses of damage. Proposal for compensation and agriculture input will be submitted to the Deptt. for getting allotment. Soon after getting allotment distribution will be completed . early warning of disaster such as hail storm and drought Assists the farmers by supporting PMFBY/BFBY.</p> |
| | Food Department | <ol style="list-style-type: none"> 1. Plan for food storage location keeping in view the necessity. 2. Primary agency responsible for identify the basic needs for food in the aftermath of a disaster or emergency, to obtain appropriate supplies and transporting such supplies to the disaster area. 3. Chira, Gur and baby food will be procured by the official and distributed to the flood hit areas on demand. |
| | Fisheries Department | <p>Freshwater fisheries work involves conducting field surveys, including fish stocks, and carrying out technical project work. They also advise members of the public and industry about sustainable fishing and promote angling as a recreational activity.</p> |
| | PWD | <p>Public Works and Emergency Management. Public works agencies are responsible for the protection and preservation of life, property, evidence, and the environment. They play a vital role in disaster prevention, preparedness, mitigation, response, and recovery. All potholes will be maintained immediately and black top roads will be kept motorable after any disaster. Bridges & culverts of PWD will be repair immediately for restore normal life.</p> |
| | WBSEDCL | <p>To supply power continuously and cut-out the same as and where required.</p> |
| | FIRE | <p>To assist initial search and rescue operation during any disaster. To arrange to arrest any fire disaster if occurs. To cordon any fire affected areas by police personnel.</p> |
| | NGOs | <p>NGOs are organizations that are non profitable voluntary and independent of government, engaged in activities concerning various societal and developmental issues. The role of the NGO's during a disaster is to have quick response and to try and save as many lives as it can with the given funds.</p> |
| | Register Club | <p>It shall perform key roles and responsibilities including who will be responsible for coordination, control and communication when responding to an emergency. Prepare to mitigate and prevent disasters through a – School Disaster Management Plan (SDMP) – and at home, through a family disaster management plan.</p> |
| | Schools | <p>To provide all the high rise School-building open during any disaster make it as temporary flood shelter. The schools shall play an important role in raising awareness among students, teachers, and parents by exhaustive training.</p> |
| | BSNL | <p>If any disaster, the telephone posts which are uprooted will be restored immediately and normalcy of communication will be ensured.</p> |

| | | |
|--|----------------------|---|
| | Police | Responsible for the management of fire accident, festival related disasters. And also responsible for security, evacuation, emergency assistant for search & rescue, first aid, maintenance of law & order, communication, shifting of people to relief camp, traffic management and burial work of dead bodies. Maintenance of law & order during distribution of relief materials. |
| | Transport Department | Primary stakeholder for road accidents Arrange for sending personnel and relief materials to the disaster affected area, relocate the affected people, keep access routes operational and inform about alternate routes. |

- Evaluation of last DDMP (procedure & methodologies):

After and during disaster, preparedness programme, mitigation work, reconstruction and rehabilitation works were monitored and documented by the Block Disaster Management Officers of the concerned Block Offices as well as Sub- Division level.

CHAPTER- 2: Hazard, Vulnerability, Capacity & Risk Assessment (HVCRA): Matrix of Last disasters, Socio – Economic profile, Tool Techniques & Methodology used for HVCR

- Hazard:
Natural disasters continue to strike unabated and without notice and are perceived to be on the increase in their magnitude, complexity, frequency and economic impact. These hazards pose threat to people, infrastructure and economic assets and assume disastrous proportions when they occur in areas of dense human habitations. Our district which is situated on the both bank of the river of Damodar, Mundeswari, Ajoy & Bhagirathi and the river being silted year after year due to lack of flow of water is always under the threat of flood. The place is also in a seismic zone-III and tornado may also hit its areas any day. This plan may guide all of us to help people in distress
- Vulnerability:
Vulnerability Analysis

➤ **Matrix of past disasters:**

Risk / Hazard Analysis

Matrix of Disaster in the District

| Year | Nature of Flood |
|------|--|
| 1913 | Flood of 1913 was called in local language as “Bish Saler Ban” as it was 1320 Bengali Year. Flood occurred at the end of August. At the first stage of flood communications from Calcutta to Burdwan were completely disrupted. Thousands of dwelling houses, lakhs of cattle, hundreds of children, aged men and woman were washed away by the flood. Raina & Khandaghosh Blocks areas were badly affected. |
| 1935 | Flood of 1935 was called as “Biyalliser Ban”. Coalmine areas of Raniganj and Madanpura areas of Andal were affected by the flood. Famine situation was experienced after the flood. |
| 1943 | Rail track near Saktigarh was damaged and G.T. Road was destructed by the flood, which shattered the communication from Calcutta to Northern India. Water passing culvert near Saktigarh was built during the year to avoid the damage of rail track. Immediately after the flood, the English Ruler alerted for flood control. |
| 1978 | In the month of August 1978, heavy rainfall occurred by dint of low pressure. Embankment of barrage was damaged by the pressure of barrage water due to heavy rainfall. Areas of Durgapur, Coalmine areas of Raniganj and industrial belt of Andal were badly affected. Vast areas of Katwa, Kalna, and Sadar (North/South) sub-divisions were affected by the flood. |
| 1986 | Some Blocks were affected by the flood in the year 1986. |
| 1995 | All the Blocks and Municipalities of Katwa sub-division, Kalna-I. Purbasthali-I, Purbasthali –II Blocks & Kalna sub-division, Ausgram-II Block in Sadar (North) sub-division, Jamalpur Block in Sadar (South) Sub-Division, Kanska in Durgapur Sub-Division were seriously affected by the Flood of 1995. |
| 2000 | During Flood 2000, 20 Blocks out of 31 were affected in the district. A large number of people were distressed, crops damaged. There were losses of livestock and human lives also. |
| 2009 | On 25th May’09 a cyclonic storm ‘Aila’ passed over the district. Almost all the Blocks were affected. 1 (one) person died due to fall of tree. 5514 nos of dwelling houses were damaged fully and 22337 no. s of houses were damaged partly. |
| 2015 | In the month of July & August, 2015, 30 Blocks , 7 Municipality, 206 GP & 1815 Mouza were affected in the district due to Flood. A large numbers of people were distressed, crops, house, road, embankment, Electricity, fishery & livestock damaged. During flood 42 person died due to drowning, lightning & snake bite. |
| 2017 | In the month of July & August, 2017, due to heavy rainfall & water discharge form Durgapur barrage Raina-II & Jamalpur Block were affected. |

❖ Tool Techniques & methodology used for HVCRA:

The Tool used preparing HVCRA is as follows:

1. Participatory Risk Assessment.
 - a) PRA is an approach for shared learning between local villagers and outsiders to enable development practitioners Govt. officials and local villagers to plan together appropriate interventions.
 - b) PRA is the process of involving local villagers in the analysis and interpretation of rural situation.
 - c) PRA is the set of informal techniques used by development practitioners in rural areas to collect and analyze data.
 - d) The Techniques used preparing HVCRA is as follows:
 1. Collects past records and demographically data.
 2. Questioners
 3. Experiments
 4. Census
 5. Case studies
 6. Participatory methods.

CHAPTER-3: INSTITUTIONAL ARRANGEMENTS FOR DISASTER MANAGEMENT (DM): GP, BLOCK, MUNICIPALITIES AND COMMUNITY LEVEL DM STRUCTURE, IRS, EOC SET-UP

Gram Panchay Level :

The Gram Panchayat Pradhan along with their employees especially the Executive Assistant & Nirman Sahayak, guided by the Block Level Liaison Officer will monitor, supervise and control the Disaster Management Works during the period of incidents

Block Level :

At Block Level Panchayat Samiti members including Office Bearers and Block Level different Officers will do the job for the disaster management. The Block Level Team consists of following members:

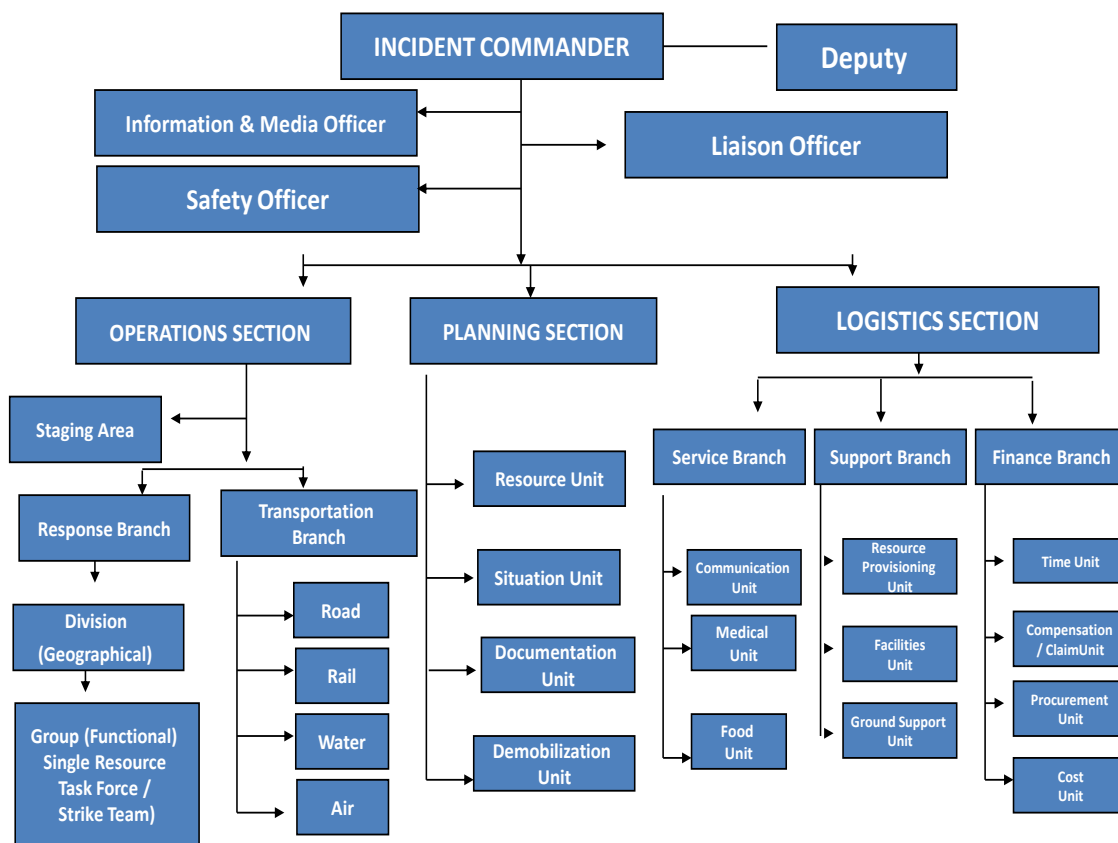

| Sl. No. | Designation |
|---------|---|
| 1. | Block Development Officer |
| 2. | Jt. Block Development Officer |
| 3. | Block Disaster Management Officer |
| 4. | Block Medical Officer of Health |
| 5. | Block Live Stock Development Officer |
| 6. | Assistant Director of Agriculture |
| 7. | Inspector Food & Supply |
| 8. | Child Development Project Officer |
| 9. | Sub Assistant Engineer, PHE (Directorate) |
| 10. | Sub Assistant Engineer, Rural Development |
| 11. | Sub Assistant Engineer, WRDD |
| 12. | Panchayat Development Officer |
| 13. | Panchayat Audit & Accounts Officer |
| 14. | Co-operative Inspector |
| 15. | Minimum Wages Inspector |
| 16. | Fishery Extension Officer |

At Municipality Level : The Chairman of the Municipality, all the Councillors of the Wards alongwith Executive Officers and technical staffs will be responsible for monitor the disaster situation and manage it under direct supervision of SDO concerned.

Community level : All the members of Gram Panchayat at community level will be informed and they in turn will educate people at grass root level and give feedback to the block level for taking up desired plan of action as per as necessary .

IRS (Incident Response System): The complexity of incident management coupled with the need for multi-agency and multi-functional involvement on incidents was the main rationale for the development of a single standard incident management system that can be used by all emergency response disciplines. This need resulted in the development and implementation of Incident Command System (ICS).

Incident Response System Organisation Chart

IRS-Intro-PPT-25

CHAPTER - 4 : PREVENTION AND MITIGATION MEASURES.

- A. For strengthening of Ex- Zamindary embankment of River Ajoy, the following mitigation works have been taking into action by MGNREGS Cell, Purba Bardhaman District at the following Blocks under Katwa Sub-Division for the year 2018-19 & it is expected that the mitigation measure will be completed before monsoon, 2019.

| Name of Block | Name of GP | Proposed No. of Scheme | Vetted No. of Schemes | Estimated amount in Rs. |
|---------------|------------|------------------------|-----------------------|-------------------------|
| Ketugram-II | Billeswar | 1 | 1 | 41,08,160 |
| Mongolkote | Mongalkote | 1 | 1 | 15,62,800 |
| Katwa-I | Koshigram | 5 | 5 | 1,60,27,827 |
| TOTAL | | 7 | 7 | 2,16,98,787 |

- B. For protection work of Erosion of left embankment of river Ajoy the following places have been taken into consideration out of Budget Amount of Rs. 6.9 Crore (Rupees six point nine crore) only by the Executive Engineer Mayurakshi South canal Division, Birbhum, Irrigation & Waterways Department

At i) Rasui, ii)Teora iii) Ganful iv) Bakalsa, v)Charki

Erosion protect work have been completed to the tune of 60% upto December, 2018 and it is expected that rest of the work will be finished before monsoon , 2019. Moreover the following activities will be done for mitigation maeasures.

- i) Awareness : Awareness generation will be done through meeting, poster, flex, and booklet. In this regard DMCD has printed a clender which is distributed through block. District Disaster Management Section of this district also has attended in different mela organised at different block for awareness generation.
- ii) DM Plan : DM plan has been prepared by all the blocks , Sub-Divisions, line dept. to prevent and mitigate disaster .
- iii) Visit of embankment : Visit of embankment will be done jointly by Irrgation Dept. local Panchayat Samity and Blocks and mitigation measures will be taken where necessary during pre monsson.
- iv) Visit of Relief Godown : It will be done by all the blocks & Sub-Divs and they will prepare the list of old godown where renovation is required and fund will be sought for from dept of DMCD for both new & old.

- v) Visit of Flood Shelter : It will be done by all the blocks & Sub-Divs and they will prepare the list of old flood shelter where renovation is required and fund will be sought for from dept of DMCD for both new & old.
- vi) Training of CDVs : Training of CDVs are going on in every month where necessary.
- vii) Training at community level awareness programme will be done by the blocks.

CHAPTER - 5: PREPAREDNESS MEASURES : EARLY WARNING, QRT, OPERATION OF EOC, GIS BASED DATA, MOCK DRILL COMMUNITY PREPAREDNESS ETC.

A. EARLY WARNING :

For disaster response in the District, Control room remains opened at District Disaster Management Section (District EOC) on and from 1st June to 31st October each year for 24X7 hours having Phone No. 0342-2665092, email : ocprbdn.civdef-wb@gov.in apart from the Sub-Divisional & Block control room this District will be opened as and when required as per emergency need.

Pre monsoon preparatory meeting will be held at district level in the month of May at the District Headquarters.

As well as control room also will be opened at SDO & BDO offices, for first hand information dissemination system from the affected villages & GP.

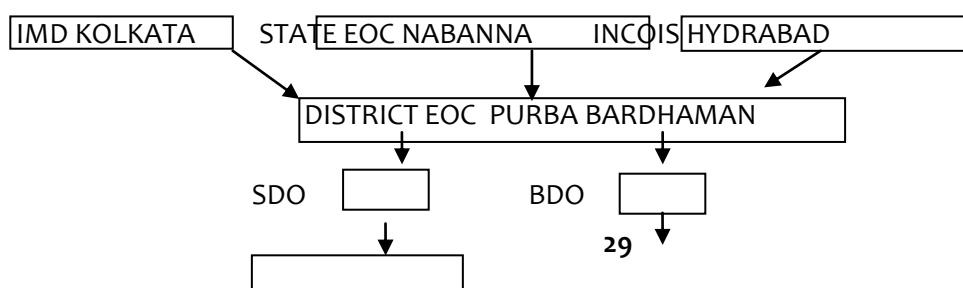

Heavy rainfall with thunderstorm message which will be directly disseminated from State EOC to the concerned GP Prodhans, SDDMOs & DDMO. It will also be communicated to the BDMOs concerned.

FORECASTING AND WARNING AGENCIES

Website of IMD, Kolkata for daily weather report will be checked by the district everyday and sent through FAX, email, and SMS to all concerned. District EOC will also keep close contact with the State EOC about the weather condition in the District and State in the monsoon period. Information received from the State is then disseminated to the Block and the Gram panchayat through respective Block & GP offices. Information dissemination is also collected from line department after / during monsoon season during the release of water from the DVC dam which may cause flood to the adjacent villages to the rivers. This practice has been started since last year 2018.

During monsoon season there is daily update of the report from District to State EOC.

EARLY WARNING DISSEMINATION

B. QRT :

At Distrit Head Qtr. QRT with the Civil Defence Volunters have been framed as mentioned below. It is needless to mention here that there are 2 (two) QRT Van, one small & one big within which rescue equipments are kept for use as and when required.

| Morning Shift (7.00 am to 2 pm) | After Noon Shift (2.00 pm to 9 pm) | Night Shift (9.00 pm to 7 am) |
|--|--|--|
| i) 2 (two) CDVs at Control room ii) 2 (two) deep divers iii) 4 (four) CDVs iv) 1 (one) QRT Driver | i) 2 (two) CDVs at Control room ii) 2 (two) deep divers iii) 4 (four) CDVs iv) 1 (one) QRT Driver | i) 2 (two) CDVs at Control room ii) 2 (two) deep divers iii) 4 (four) CDVs iv) 1 (one) QRT Driver |

C. Operation of EOC :

District EOC will be operated from the Office Chamber of the DDMO through office phone no. 0342-2550373 as and when required. Close contact will be kept with State EOC through toll free no 1070.

D. Mock Drill, Community preparedness etc. :

Community preparedness through exhaustive training programme through out 23 Blocks, 6 Municipalities will be done from January to December every year for which a traing calander will be prepared. Mock drill on flood, drowning will also be conducted during a suitable time. It is mentioned here apart from above, training / awareness programme are being conducted by BDMOs with trained CDVs at many blocks. Documentation of the above training are being preserved for submission to the Department.

CHAPTER - 6: CAPACITY BUILDING & TRAINING MEASURES : APPROACH, ANNUAL TRAINING PLAN & BUDGET.

Community capacity building and community based disaster management :-

This includes training of vulnerable community on the resilient society building. The activities would be organised by the block Disaster Management Section which would include community awareness on disaster, mitigation and awareness on early warning, resilient house building, embankment protection and drinking water safety measures. Communities are also sensitized on safe house building, sanitation use and ways to get safe drinking water in the community.

Civil Defence Volunteers.

The Civil Defence Volunteers are trained time to time by Civil Defence Section on providing First Aid to the wounded, artificial respiration, emergency method of rescue, bandage, knot and stretcher. They will be used as potential human resources in time of any disaster for quick response to the affected and at the same time will be used for control of the District EOC and relief distribution and loading and unloading of relief materials. The Civil Defence volunteers are also trained on divers programme. At present there are 13 Nos. of trained deep divers available in the district Civil Defence Section, Purba Bardhaman upto December, 2018. Availability of total basic trained CD volunteers in the district is 2842 as on December'18.

Upto December, 2018 Total 56 Training on Awareness programme & Capacity Building on Disaster Management have been done at different Blocks & Municipalities under Purba Bardhaman District .

Moreover a tentative training programme on different topics of Disaster Management under different Blocks are appended below.

| Sl. No. | Name of the Block | Training Topic | Participants | No. of training to be held | Time | Remarks |
|---------|-------------------|---|--|----------------------------|---------------------------|---|
| 1. | Ketugram-I Block | Scenario of different types of Disaster Management & Various schemes of DM Deptt. | Newly elected GP members, community & School childrens | 08 | January'19 to December'19 | Training will be conducted with trained CDVs , NGOs and BDMOs |
| 2 | Ketugram-II Block | Training of awareness, capacity building on Disaster Management | do | 09 | Do | Do |
| 3 | Katwa-I | Do | do | 24 | Do | Do |
| 4 | Katwa-II | Do | do | 11 | Do | Do |
| 5 | Mongolkote | Do | do | | Do | Do |
| 6 | Khandaghosh | Do | do | 16 | Do | Do |
| 7 | Memari-I | Do | do | 5 | Do | Do |
| 8 | Memari-II | Do | do | 10 | Do | Do |
| 9 | Raina-I | Do | do | 12 | Do | Do |
| 10 | Raina-II | Training, awareness, Mock | do | 13 | Do | Do |

| Sl. No. | Name of the Block | Training Topic | Participants | No. of training to be held | Time | Remarks |
|---------|-------------------|---|--------------|----------------------------|------|---------|
| | | drill on Disaster Management | | | | |
| 11 | Jamalpur | Training, awareness, Mock drill on Disaster Management | do | 10 | Do | Do |
| 12 | Ausgram-I | Flood, Fire safety, snake bite, safety against lightening | do | 24 | Do | Do |
| 13 | Burdwan-I | Training, awareness, Mock drill on Disaster Management | do | 12 | Do | Do |
| 14 | Burdwan-II | Foundation training of Civil Defence Volunteers, Training - cum-Awareness & Relief Measurs camp of newly elected members of Gram Panchayat, Mock Drill, Awarness camp & snake bite management, Mock Drill regarding accidental drowning cases | CDVs | 13 | Do | Do |
| 15 | Ausgram-II | Mock Drill drowning , fire, flood | do | 15 | Do | Do |
| 16 | Galsi-I | Training of awareness, capacity building on Disaster Management | do | 12 | Do | Do |
| 17 | Galsi-II | Do | do | 12 | Do | Do |
| 18 | Bhatar | Do | do | 10 | Do | Do |
| 19 | Monteswar | Do | do | 23 | Do | Do |
| 20 | Purbasthali-I | Do | do | 34 | Do | Do |
| 21 | Purbasthali-II | Do | do | 25 | Do | Do |
| 22 | Kalna-I | Do | do | 7 | Do | Do |
| 23 | Kalna-II | Do | do | 5 | Do | Do |

Moreover the SDDMOs & BDMOs from the district are regularly sent to ATIs for reviewing and updating their knowledge on DM and mitigation as per the changing norms of the deptt's. needs and for practical implementation at the field level. These training are done at Govt. organisation and Non Govt. ofganisaton collaboration. Based on the HVRCA evaluation is being made to identify the crisis and plan mitigation programmes to reduce disaster.

Community level institutions (PRI, Blocks, Schools and Hospital) are sensitized by the programmes organised by the Block Disaster Management Department at various occasions and through IEC materials and booklets. Muncipalities conduct regular awareness programmes on helath issues and hygiene among the wards.

CHAPTER - 7: RESPONSE AND RELIEF MEASURES.

Disaster response is the second phase of the disaster management cycle. It consists of a number of elements, for example; warning/evacuation, search and rescue, providing immediate assistance, assessing damage, continuing assistance and the immediate restoration or construction of infrastructure. The aim of emergency response is to provide immediate assistance to maintain life, improve health and support the morale of the affected population. Such assistance may range from providing specific but limited aid, such as assisting refugees with transport, temporary shelter, and food, to establishing semi-permanent settlement in camps and other locations. It also may involve initial repairs to damage or diversion to infrastructure.

The focus in the response phase is on putting people safe, need to prevent disasters and meeting the basic needs of the people until more permanent and sustainable solutions can be found.

A. Disaster Management Section :

The blocks are well equipped with the resources and inventories to address any disaster situation in the blocks. For any major disaster situation for which external help is needed the State will coordinate with the Central govt. for assistance of help and relief measures. This would be done in coordination of the Principal Secretary and Joint Secretary of the State. The coordination for support for external help would also include report from blocks forwarded by the SDO to DM of the District.

The first assessment report would be prepared by the block in CA-II form in coordination with the Panchayat based on HVCRA format. This would include the nature of disaster, loss of property, loss of human life, infrastructure loss and the support of needs to be provided. This would be done by the damage assessment team prepared in the block. BDMO will monitor the findings and take necessary steps in coordination of BDO, SDO and Department of Disaster Management and Civil Defence.

The blocks are pre stocked with relief items which includes tarpaulin, clothing, food grains etc. Based on the findings of the assessment report, the relief items would be distributed among the affected community. Line deptt. of the Govt. will also arrange for the pre stocking of materials which includes requirement of bleaching powder, Halogen tablet, ORS packet, normal saline, AVS by the Deptt. of Health. The Dept. of Food & Supply allots special ration allotment in the affected areas with food grains & kerosene oil. PWD, PHE, Electric supply will do all necessary restoration of damage assets in the community, whereas based on the damage assessment report of Horticulture dept., ARD and Agriculture would provide seeds, fodders for restoration of livelihood in the areas.

DEPARTMENT OF ARD :

Arrangement for procurement and storage of essential inputs i.e medicines, vaccines disinfectants, drinking water etc., have been made to save the affected livestock.

They Will keep reserve stock of paddy straw and concentrate feed respectively for anticipated calamity, if any.

HORTICULTURE :

The deptt. of Horticulture will arrange and keep ready seeds for distribution and pre stock of seeds for the distribution among the affected farmers and communities. These include seeds like vindi, cucubers, brinjal, chilli, palak, radish, cauliflower, cabbage, tomato, brinjal etc.

PHE:

The PHE Division arranges and mitigates disaster situation. The deptt. has their vulnerability assessment of the area and has pre stocking of the stocks for immediate use after any disaster. This includes preparedness pre disaster, during disaster and post disaster for mitigation work.

FISHERIES :

Deptt. of Fisheries arranges and mitigation disaster situation. The department has their vulnerability assessment of the area affected and makes damage assessment of loss to the fishery. The same is incorporated to the damage assessment report. The Dept. arranges for boats and coordinates with the relief distribution in flood affected areas. The deptt. arranges for supply of fishes in the affected communities.

WBSIEDCL :

Deptt. of electricity / Deptt. of WBSIEDCL opnes 24 X 7 control room for addressing disaster in the district. Alongwith this pre stocking of essential items are made for the addressing any power failure in the district/ blocks. The Dept. also arranges for quick response van with sufficient manpower at all customer care centre and HT mobile vans with sufficient manpower at all 33/11 KV sub-station are engaged for day to day work and also meet up the emergency situation.

IRRIGATION & WATERWAYS :

Deptt. of Irrigation conducts cleaning the water hyacinth in the different khals where necessary. Cleaning and maintain of sluice gates will be done.

DISTRICT DISASTER MANAGEMENT SECTION:

The relief reconstruction, rehabilitation and recovery measures of the district would be monitored by the Directorate of the respective departments involved. District Magistrate would provide guidelines on the type of assistance should be provided and the quantity.

The reconstruction, rehabilitation and recovery measures of the district would be done based on the findings of the damage assessment team in the affected blocks, GP and Panchayat. This would be based on the findings and needs of the community. The line departments of the Govt. would be responsible for the restoration of the livelihood and the infrastructure of the community.

CHAPTER-8: RECONSTRUCTION, REHABILITATION AND RECOVERY MEASURES

Reconstruction: Steps will be taken to reconstruct the damaged properties with immediate effect through available Government fundings of GP, Block & Districts to regularize the situation after the disaster. In case of flood like situation Drinking Water facilities will be disinfected very soon to protect the human life. Agricultural and Live stock losses will be assessed without delay to mitigate the owners with insurance and Government aids.

Rehabilitation: The people who left their houses to save their life will be rehabilitated after due care of their houses. Government aids will be provided them to cope up the situation. Starvation Gratuitous Relief may also provided them for their daily foodings.

Recovery: Recovery of the human life during disaster and after the disaster from their distress condition will be taken care off. The Gram Panchayat functionaries will provide close vigil on the health, nutrition and livelihood. They will be provided priority in respect of appropriate Government Schemes after the disaster. A thorough micro plan to make their life normal will be prepared by the Gram Panchayat with the help of Block for taking immediate measures.

The Department of Disaster Management would provide essential services to the community. These includes:

- ❖ Special GR (Rice)
- ❖ Normal GR (Wheat)
- ❖ Cash GR (Starvation)
- ❖ Cash GR (NC)
- ❖ Tarpaulin for shelter
- ❖ ER Grant (Economic rehabilitation) grant for financially unstable communities (General & Ex TB patients) to start new livelihood options.
- ❖ Provision for distribution of cloth, garments, blankets, male wrapper and DM kit.

For construction of the houses which are damaged, the provision of HB Grant (Fire/NC) allotment is made. The grant is subject to communities economically unstable and under financial constrain. Recommendation & assessment report would assess the amount to be sanctioned as per the damaged report. Vulnerable communities are given main focus for the scheme.

The line departments of the Govt. would be responsible for restoration of the livelihood and infrastructure of the community.

- i) PHE would provide drinking water and sanitation facility to community.
- ii) Health department would monitor the health condition.
- iii) Agriculture, Horticulture and Animal husbandry department would be responsible for the restoration of the livelihood of the community and providing support. This activity can also be long drawn by the report of NGO's through respective programme.

The damage assessment would also formulated the need for intervention for long term & short term relief measure. The respective line department would formulate plan & programmes as per need of the community.

Those are as follows :

- ❖ Training of SGH groups on alternative livelihood and natural Resources Management like season nursery raising, manure production by Agriculture department

- ❖ Training of farmers club on rice intensification techniques, saline, variety paddy cultivation agriculture department by agriculture and horticulture department.
- ❖ Awareness generation on different alternative livelihood govt. schemes like embroidery mobile technologies GO block level.
- ❖ Raised platform as evacuation points under MGNERGA
- ❖ Repairing of roads, channels clearing activities under MGNREGS.
- ❖ Repairing of embankment with piling process under MGNREGS.
- ❖ Pond renovation and land shaping activities for IBS and beneficiaries by MGNREGS.
- ❖ Road side plantation / household plantation schemes from Panchayat / Agriculture department .

Long term programmes :

- ❖ Strengthening of vulnerable embankments by Irrigation Department
- ❖ Water testing / disinfection of tube wells by official of PHE
- ❖ Training of water user group repairing of tube wells by PHE / block
- ❖ Installation of temporary tube wells in flood prone areas by GP / block / PHE
- ❖ Installation of temporary community latrines by block / TSC/ NBA

No Structural:

- ❖ Mason / Carpenter / Engineer training construction pattern by MGNREGS / IAY (RGAY)
- ❖ Training on tube well repairing by PHE / block
- ❖ Training on sanitary mart under NBA
- ❖ Construction of DRR shelter under IAY (RGAY)
- ❖ Construction of tube wells with raised platform by PHE / Block/ GP
- ❖ Construction of cyclone and flood shelter under NCRMP / PMNRF

Livelihood activities :

- ❖ (Structural) New concrete road construction by PWD / Block/ PMGSY
- ❖ Mangrove plantation in approach / embankment under MGNREGS / GP/ block/ Agriculture department.
- ❖ Cannel clearing and installation of sluice gates by irrigation dept.
- ❖ Maintenance of roads and building of new roads under PWD.
- ❖ Involvement of SHG in schools MDM programmes under Department of Education.

Financial year 2017-18 District Disaster Management Section has distributed which included

CHAPTER - 9: FINANCIAL RESOURCES FOR IMPLEMENTATION OF DDMP : STATE BUDGET, MITIGATION FUND, RISK INSURANCE.

The fund for the District Disaster Management Section is provided as and when required from the Department of Disaster Management & Civil Defence, Nabanna.

These fund includes :

- ❖ House Building grant (both NC & fire)

- ❖ ER Grant (both General & Ex TB patients)
- ❖ Ex Gratia Grant fund for death of persons (snake bite, lightening & accidental fire etc.) , Fund are sanctioned by NDRF/SDRF (fund in the district).
- ❖ For any damage (due to flood / cyclone etc.) restoration funds are provided by DMCD for line department as well as District Disaster Management Section.
- ❖ Contingency fund to incur different payments related to Disaster Management.
- ❖ Besides these the State Govt. sanctioned funds for the generation of awareness programmes in the blocks, alongwith the funds to conduct mock drills. These funds are used for mitigation of disaster in the community and at the same time generation of awareness among the community on disaster and mitigation measures.
- ❖ Respective line department also use their fund for the implementation of DRR activities in the block through their regular programme.
- ❖ Fund are also been used for construction of flood shelter as well as relief godown.

For the year 2018-19 (Upto January 2019) the following funds were received from the department of DMCD:

| Name of Items | Amount sanctioned in Rs. | No. of beneficiaries covered |
|-----------------------------------|--|---|
| House Building Grant (Fire) | Rs. 12,44,800/- | 94 Persons |
| ER (Gen.) Grant | Rs. 2,00,000/- | 20 Persons |
| ER Grant (Ex. TB patients) | Rs. 55,000/- | 11 Persons |
| Ex Gratia grant (NC) | Rs. 52,00,000/- | Lightening : 21 Nos. Accidental Fire : 01 Nos. Drowning : 04 Nos. TOTAL 26 Nos. |
| Ex- Gratia Grant (Snake Bite) | Rs. 1,31,00,000/- | 131 Persons |
| Cash GR | Rs. 1,00,000/- | |
| Contingency | Rs. 25,00,000/- | |
| For Construction of flood shelter | Rs. 1,82,82,000/- | for construction of 6 Nos. new Flood shelter as fresh & 1 st instalment @ Rs. 30.47 Lakh. |
| For construction of relief godown | i)Rs. 72.48 Lakh ii) Rs. 18.12 Lakh | i) For 8 Nos. new relief godown @ Rs. 9.06 lakh as 1 st Installment. ii) For 2 Nos. new relief godown @ Rs. 9.06 lakh as final & 2 nd Installment. |

CHAPTER-10: Procedure And Methodology For Monitoring, Evaluation, Updation And Maintenance of DDMP.

The block would review the BDM plan annually and submit the same to the District Disaster Management Section under Section 31 (4). The District Disaster Management Department would compile the same along with the Disaster Management Plan of the line department of the Govt. and formulate the DDMP.

Monitoring: The Disaster Management Plan will be monitored closely during the period of disaster. If any discrepancy/ difficulties found, it will be noted down for future

reference. The village level stake holdres' view also to be incorporated in the plan, because they are the primary stake holdres of the incident.

Evaluation: After each and every occurrence plan will be evaluated by the Block Level Monitoring Committee. SWOT analysis of the plan will be also be taken care off. Weakness and Threat of the Plan will be tried to minimize by resource input available.

Updation: Plan will be updated time to time to make it more and more effective and error free. The aim to updation of plan is to make the plan fit for every incedent under the jurisdiction of the Block.

Maintenance: The plan will be maintained in a dynamic manner rather make it a static bunch of papers. All the findings will be analysed in view of the situation and decision evaluated will be incorporated in the plan with due care. The need of the affected people will be given top priority during maintenance of the plan.

Post disaster evaluation mechanism for DDMP would be done by the respective Block Disaster Management Section and the line department of the Govt. respectively. Based on the plans submitted by them the recovery and relief measures would take place.

Schedule for updation of DDMP :

Regular updating process of the DDMP, reflecting section that needs updation at various intervals as per need and changes in the communication & mitigation plan under Section 31 (7)

One plan is submitted by the District under Section 31 (6) as directed it would upload to the web site of the department for reference and use and also for the reference of the common people.

Conducting mock drills at district and sub-division level, at least annually, is important for the district as per approved mock drill calendar. It would ensure that alls should understand their roles and responsibility clearly and understand the needs of the vulnerable groups involving them in actual exercise. It would also help to test the efficacy of the plans prepared. Based on feedback from such exercise, the plans will have to be revised and capacity would be enhance to fill the gaps. While indicating the mock drill plan of action , is essectial to list down the following.

- ❖ The Sub-Division Disaster Management Section and the block Disaster Management Section would conduct training and awareness programme in the blocks as per the guidelines of the DMCD. This would be based on the scheduled prepared by the blocks in coordination of the line departments participating in the mock drill exercise. Respective department will arrange for the necessary equipments needs for organising the training and mcok drill in the block.
- ❖ Training and updation of knowledge is provided by the ATI to the DDMO, SDDO, BDMO on regular process to formulate and monitor the plans of

the district. Training are provided on a regular basis to familiarize one with the changing trends in disaster mitigation and planning in the state and block level based on the DDMP and national guidelines.

CHAPTER -11: COORDINATION MECHANISM FOR IMPLEMENTATION OF DDMP.

The District Disaster Management Section will co-ordinate and monitor the DDMP in co-ordination of the line Deptt of the District. Co-ordination would be done by the Deptt in consultation with the contact numbers of the respective Deptt and via official letters and e mails.

Respective BDMOs of the Block would co-ordinate and follow up activities and linkage with the task force of civil defence team and co-ordinate with villages during and pre disaster situation.

As per section 41 of DM Act 2005, local authorities will co-ordinate and formulate for implementation of the Plan in the District. Blocks and local PRI will co-ordinae and implement the DDMP in the Block. The local authority also plays a vital role in time of relief distribution and co-ordinate for implementation of relief programme. Local

authority also take active role in carcass disposal. The Additional District Magistrate , OC Disaster Management, DDMO would be the authorised persons to coordinate and monitor the recovery programme in the district along with SDDMOs & BDMOs.

During management of any disaster support from neighbouring district may be sought for. For this SDMA and concerned departments of the State will provide necessary direction. Neighbouring district may provide, if required like boats, earth moving equipments, ambulances, dry food like Chira & Gur, baby food etc. There will also be a co-ordination for inter district during release of flood water from the dams by DVC authority & Irrigation Department.

CHAPTER -12: STANDARD OPERATING PROCEDURES (SOPS) AND CHECKLIST.

SOPs and checklists could be prepared for various stakeholders effective response. These can be made based on the functioning of Emergency Support Function groups or IRS. Depending on the hazard profile and level of exposure the district should decide in a participatory way the number of ESF covering all the above. The SOPs would briefly describe the following :

- ❖ Definition of disaster situations
Disaster is a serious disruption of the functioning of a community or a society involving widespread human, material economic environmental loss and impacts, which exceeds the ability of the affected community of society to cope using its own resources.
- ❖ Action on receipt of warning and warning dissemination
 - IMD , (Warning message dissemination to State EOC to District)

- State EOC to District, SDO, BDO, Municipality, G.P, Ward, Villages)
- ❖ Process to access financial and technical resources (department & stakeholders) for emergency response :
 - State Disaster Management & Civil Defence Department
 - District Disaster Management Section
- ❖ Role and responsibilities of the department or and stakeholders in emergency response:
 - Disaster Management Section.
 - Line Department.
 - Block Disaster Management Section.

- ❖ Information management and dissemination strategy.
 - State EOC.
 - District EOC
 - Block EOC.

Media management strategy during emergency response.

- i) District magistrate
- ii) Additional District Magistrate(Disaster management) in co-ordination with the District Disaster Management section and the Line Department.

Request for State Govt assistance.

- i) District magistrate
- ii) Additional District Magistrate(Disaster management)

Relief and rehabilitation norms.

- i) Evacuation.
- ii) BDMO
- iii) Civil Defence
- iv) Panchayat and Municipality
- v) Police.

Search and Rescue.

- i) NDRF
- ii) SDRF

Standard Operating Procedure (SOP):

- Day One
 - Zero Hour→Communicate all concerned related with disaster-- Rapid situation analysis conducted by available means and report prepared.
 - Past Zero Hour→Movement of QRT to the place of incidents—Relief Material to be dispatched to the nearest rescue shelter—Rescue tools and mobilities to be arranged depending upon the nature of incidents— Medical Team to be send to the spot
- Day Two
 - Engage as many as volunteers needed to assist the affected people
 - Analyze situation and plan accordingly
 - Stock Taking and requisition relief material & other things
- Day Three to Day Nth
 - Situationa Analysis
 - Stock taking of mitigation work already done
 - Assessment of requiremet of NDRF/ SDRF, etc.
 - Stock taking of destruction of properties
- Day Nth plus One
 - Submission of Written reports by all the Stakeholders. The reports shall include a brief regarding their experience, lessons learnt, the problem areas encountered by them and their suggestions for improving the systems.
- Day Nth plus Two Week
 - Prepare Mitigation Plan
 - Start Mitigation work with the help of own resources
 - Send requirement for resources to be required from vertical hierarchy immediately
 - Continue the process still completion
 - Evaluate Disaster Management Plan
 - Update Disaster Management Plan where it requires

SOP for Rail Accident

Definition of Rail Accident situation :

A serious disruption of the railway coaches / rail lines by two trains / train with other vehicles involving widespread human, material loss which exceeds the ability of the affected passengers to cope using its own resources and requires external assistance.

- a) Action on receipt of rail accident : As soon as the rail accident message will be received from the local police station / railway authority / local people at district EOC will be communicated to the local BDO / SDO/ DM and the state EOC.
- b) Proceeds to access technical resources for emergency response : Soon after getting the rail accident information, SDRF / Civil Defence department will be informed by District Disaster Management Section for search and rescue operation. Besides this health Dept.will also be informed to move with medical team & ambulance to the spot. Moreover, District Disaster Management & Civil Defence Section will be informed by the District Magistrate to depute NDRF / SDRF for immediate action.
- c) Role and responsibility of Stakeholder :
 - i. Railway department will take immediate measures for power cut-off and invite rescue railway van and recovery van. They will arrange for uninterrupted rail service by maintaining all possible measures.
 - ii. Search & rescue team: they will start search & rescue operation and bring out the wounded / injured passengers and send to local hospital after first aid treatment by medical doctor.
 - iii. Police personnel: They will cordon the area to save luggage / belongings of the passengers from theft / misplaced.
 - iv. Transport Department: They will provide quick local transportation support to save life.
 - v. Railway Hospital : Injured passengers will be shifted to nearest railway hospital for treatment.
 - vi. Medical Team : Medical Team of both railway / CMOH office / BMOH will check up the injured passengers and arrange to hospitalise them if required to railway / civil hospital / Kolkata.
- d) Medical Management Strategy : The ADM(Disaster Management) in coordination with District Disaster Management Section and line department of the Govt. will arrange to list up the names of the injured / deceased passengers with photograph and arrange to display those in an open space. A temporary control room with phone / mobile numbers will be opened on the spot for early communication with the relatives of the injured / deceased person.
- e) They will also circulate the rail accident through local T.V channels/ Cable T.V. channel and the control room phone / mobile numbers also.
- f) Relief and Rehabilitation Norms :
 - i. Evacuation : Injured / deceased passengers will be evacuated by civil defence / Panchayat/ municipality /DMG / Police etc and will be kept in a temporary built tent / camp for identification and medical treatment. .
 - ii. Search & rescue : It will be done by NDRF/ SDRF / Civil Defence team / police etc.
 - iii. Cordoning the area ; Police authorities both RPF/ Civil administrative will cordon the area affected and arrange lightening the spot for rescue operation, if occurs during night to continue rescue operation beyond day

light. Aska light of District Disaster Management Section may be used if needed.

- iv. Traffic Control : Traffic movement / control will be maintained by the local police authority to keep normal life and restore normalcy.
- v. Law and Order safety measures : It will be monitored and maintained by police authority i.e SDPO/ I.C.
- vi. Dead body disposal : Persons / Passengers who died will be certified by the medical officer/ doctor and then post mortem arrangement will be made by medial team. The dead body so identified will be handed over the near relatives after maintaining a register by Civil Police / Railway police.
The unidentified dead bodies will be kept in the railway Hospital/ Morgue for somedays and will be arranged for disposal after a fixed times.

g) Humanitarian Relief and assistance:

- i) Dry food / cooked food will be provided by local body/BDO/ Railway authority.
- ii) Drinking water: PHE / local body/BDO/ Railway authority.
- iii) Medicines : health Department of railway / civil administration/ BPHC/ Sub-Centre will supply emergency medicine.
- iv) Psycho Social and trauma care : Health Department through BPHC / District Hospital for major accident NMHANS will assist
- v) Clothings / Garment / Blanket supply : It will be done by BDO/ Railway authority.
- vi) Providing Help Line : District EOC/ Railway enquiry number will be provided for getting up-to-date information of the rail accident.
- vii) Management of VIP visit : State Police Department in co-ordination with the District Disaster Management section in consultation with ADM (Disaster management) will arrange the same.
- viii) Maintenance of record as documentation and financial assistance : The BDMOS / SDDMO will be responsible for keeping record of names of next of kin (s) of the deceased for financial assistance as Ex Grata Grant by Railway / State Govt. He will provide the detail report to the District Disaster Management Section for submission of the same to the State through ADM/DM and Payment will be made after getting fund after declaration / announced by the State Govt/ Central Govt.

ARD :

Natural Calamities like flood, cyclone and drought are common in West Bengal and are annual feature. There are many districts which are flood prone where as there are few other districts which are drought prone. Tornado in coastal area and land slides in hilly areas of the state are also not uncommon. Therefore, a detailed work plan /action plan are suggested for combating the natural calamities in the long term interest of Animal Resources Development.

The Action plan may be classified in three phases:-

- A. Preparedness in anticipation.
- B. Immediate Action in face of calamity.
- C. Post Calamity Action.

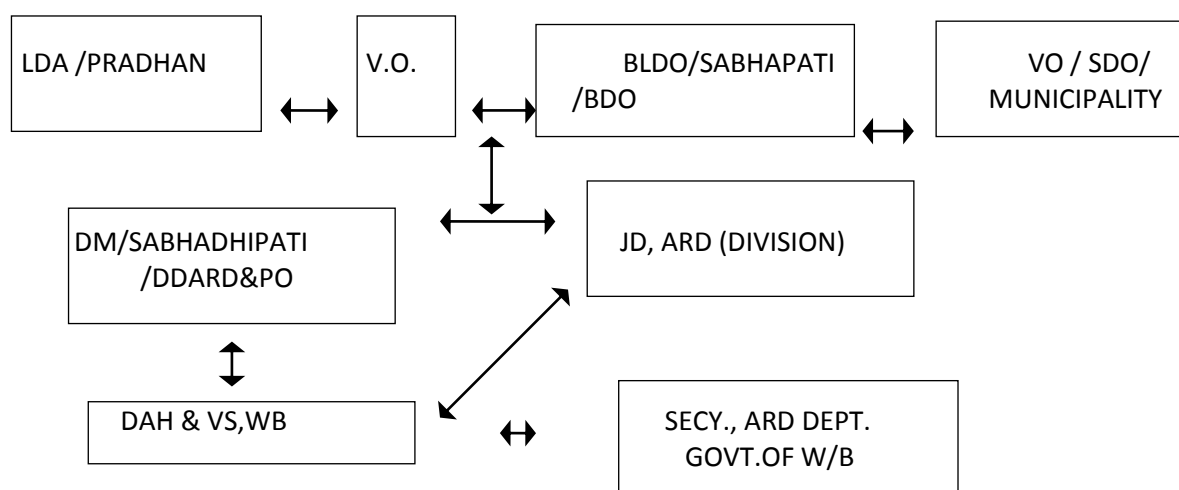

A. PREPAREDNESS IN ANTICIPATION:

- ❖ Advance planning to keep all departmental staff alert before the onset of the season and their subsequent deployment in the eventuality should be through deployment planning and necessary strengthening.
- ❖ Arrangement for procurement and storage of essential inputs like medicine, vaccine, feed, fodder, disinfectants , water purifier etc. to save the affected livestock, to be made.
- ❖ Director of Agriculture Department/ Deputy Director, Agriculture (Admn.) of the district to be requested to keep the paddy straw in stock for the anticipated calamity.
- ❖ Managing Director of DAIRPOL to be requested to keep reserve the concentrate.
- ❖ Animals in endemic zone, to be vaccinated against different bacterial and viral diseases as the case may warrant, e.g. Anthrax, H.S.,B.Q., P.P.R, Goat Pox,R.D., F.C., F.P., etc.
- ❖ Identification of vulnerable areas and livestock shelters.
- ❖ Arrangement to be made for opening control room at District/Sub-Division/Block level and Veterinary team to be kept ready to proceed promptly along with medicines.
- ❖ Finalisation of rate for procurement of paddy straw locally by inviting quotation at Block/ District level.
- ❖ District Administrative Authority and Panchayat functionaries at various levels to be contacted in regular manner to have updating information for calamities and guideline to aware the farmers.

B. IMMEDIATE ACTION IN FACE OF CALAMITY:

- Opening control room at Block, Sub-Division, Districts and state Level.
- Assessment of need based on requirement of inputs materials (feed & fodder, medicine, vaccine) for affected livestock and communication of the same to the Government.
- Procurement of feed from DAIRPOL and fodder from Agriculture /local market, medicine and vaccine to be distributed with the help of Block & Panchayat Functionaries.
- Opening of Animal Health Camps immediately at the affected area near the temporary shelters with medicines & vaccines and asses the loss in respect of ARD.
- Initiation of carcass removal by arrangement with Civil Defence Volunteers / Panchayat Functionaries/ Civil Society Organization.

he flow chart would be as follows:-

C. POST CALAMITY ACTION (Delayed Action):

- Animals in endemic zones, to be revaccinated against different bacterial and viral diseases as the case may be, e.g. Anthrax, H.S, B.Q,PPR.Goat Pox,RD, FC, FP etc.
- Care should be taken to combat the post calamity various diseases of livestock which will affect their health and production.
- Economic rehabilitation of affected Livestock farmers may be provided with small units of Poultry, Piggery, Goatery and Dairy etc.
- Model Livestock scheme may be implemented in consultation with Panchayat Functionaries.

SET UP CONTROL ROOM: Following officers are for dealing with the natural calamities including Cyclone.

EMERGENCY SUPPORT FUNCTION (ESF) PLAN

1. Provision of Emergency Support in the event of natural/man-made disaster in regard to the following are:

| | |
|-----|--------------------|
| (a) | Manpower |
| (b) | Services |
| (c) | Medicine & Vaccine |
| (d) | Feed & Fodder |

2. Nodal Officers:- The detail of Nodal Officer and the Alternate Nodal Officer for the purpose of coordinating Emergency Support Functions are as mentioned below:

District Nodal Officer

| Name & Designation | Office address | Residential Address | Phones with STD Code, e-mail |
|---|---|---------------------|--|
| Dr. Animesh Sikder, DD, ARD & PO, Purba Bardhaman | Purta Bhavan, 6 th Floor, Purba Bardhaman, PO-Sripally | Burdwan | 0342-2644117/7604010035/ 9830272609 ddardburdwan@darahwb.org |

Alternate District Nodal Officer

| Name & Designation | Office address | Residential address | Phones with STD Code, e-mail |
|---|---|---------------------|---|
| Dr. Sukumar Chatterjee DVO, Purba Bardhaman | Purta Bhavan, 6 th Floor, Purba Bardhaman, PO-Sripally | Arambagh, Hooghly | 7604010451 / 9474531331 ddardburdwan@darahwb.org |

3. Quick Response Team (QRT) at Field (District) Level:-

The District has set up a QRT at District level for emergency response and the task assigned and the detail of the Team are furnished below.-

| Name/Designation/Office address | Phones with STD code, e-mail | Assigned works |
|---|--|------------------------------|
| Team Leader | | |
| Deputy Director of ARD&PO, Purba Bardhaman | 0342-2644117/7604010035/ 9830272609 ddardburdwan@darahwb.org | Over all |
| Alternate Team Leader | | |
| District Veterinary Officer, Purba Bardhaman | 7604010451 | Logistics arrangement |
| Member-1 | | |
| Assist. Director (Disease Investigation), Purba Bardhaman | 7604010452 | Disease control, vaccination |

| | | |
|---|------------|-----------|
| Member-II | | |
| Assist. Director (Small Animal), Purba Bardhaman | 7604010456 | Reporting |
| Member-III | | |
| Assist. Director, ARD(Veterinary), Purba Bardhaman | 9434255174 | Liaison |

4. Resource Inventory:-

District is in a position to make available the following type of requirements:-

| Sl. no. | Men/Material/Services Description/Specification | Qty. Nos. | in | Qty. Wt./Vol. | in | Availability Location |
|---------|---|-------------|----|-----------------------|----|---|
| 1 | Manpower | As per need | | | | Up to block & GP level. |
| 2 | Services | | | | | Available from State Govt. & NGO. |
| 3 | Medicine & Vaccine | | | As per fund Provision | | At District Hq. |
| 4 | Feed & Fodder | | | As per fund Provision | | At different feed plant of, Epic throughout the State |

5. The Emergency Support Function Plan

DEPUTY DIRECTOR AGRICULTURE :

Introduction:

The District Purba Burdwan is the granary of West Bengal. The district is enriched with the rivers like the Ganges, Ajoy, Damodar, Barakar, Kana Brambhani, Khari, Banka and many other river and riverlets.

The climate of the district is normally moderate. The temperature ranges from 24°C to 44°C in Summer and 6°C to 25°C in Winter. The annual average rainfall of the district is 1300 mm. There are some pockets of the district adjacent to different rivers are vulnerable to flood but the western part is slightly drought prone and susceptible to soil erosion.

There are 3 types of Soil in the district – (i) Gangetic Alluvium – This type of soil is found in this district beside the river Ganges, (ii) Vindhya Alluvium – This alluvium soil is found between the rivers Ajoy and Damodar, (iii) Lateritic Soil – It is found in some parts of Ausgram-I, Ausgram-II Block in the western part of the district which is highly porous, poor in organic matter content and acidic in nature.

The district comprises 3 Agricultural Subdivisions namely Burdwan Sadar, Kalna, Katwa & 4 Administrative Subdivisions namely Burdwan Sadar (North), Burdwan Sadar (South), Kalna, Katwa.

The major crops grown in the District are Aus, Aman, & Boro paddy, Potato, Jute, Mustard, Til, Wheat, Groundnut, Vegetables, Pulses etc.

| Sl. No. | Source of Irrigation | Irrigated Area |
|--------------|--|------------------|
| 1 | Cannel | 232000 Ha. |
| 2 | R.L.I. | 17120 Ha |
| 3 | D.T.W. (DTW: 13360 ha + HDTW: 7170 ha + MDTW: 760 ha + LDTW: 6210 ha) | 27500 Ha |
| 4 | S.T.W. | 80500 Ha |
| 5 | Tank / Ponds / Others | 3280 Ha |
| Total | | 360400Ha. |

The District faces both flood and drought & sometimes one is followed by another in a same year. The eastern part of the District has flood prone areas of about 105000 ha. As well as few Blocks have Temporary Drought prone area, this is about 16470 Ha. The average rainfall of the District for last 10 years is 1271 mm., but it is the experience of the people that the District faces scattered & uneven distribution of rainfall almost in every year & the monsoon showers come mostly in late and withdraws in early.

The Disaster Mangement plans in Agriculture sector means the contingent crop planning in Kharif crops during Kharif season to meet up the unforeseen contingencies like flood, drought etc. during the growing season of crops.

Agriculture largely depends on the nature & contingent crop planning is an integral part of agricultural production planning. The objective of the contingency crop planning is to provide ways & means to tackle the situation due to flood or drought or any other natural calamity.

To combat the situation, whatever it may arise due to flood or drought the following action plan may be adopted:

Planning may be adopted for the mitigation of vulnerability due to Drought / Flood
 In case of Drought:

| Condition | Suggested measures |
|----------------------|---|
| Early Season Drought | a) Direct seeding by Drum seeder b) Paddy sowing by Zero Tillage Machine c) Adopt SRI method of cultivation. d) Transplant 3-4 seedlings/hill e) Use of micro irrigation systems like drip/sprinkler/rain gun etc. f) Distribution of Agril. Inputs to the affected farmers. g) Crop Insurance |
| Mid Season Drought | a) Rain water harvesting structures & watershed development projects should be developed. Maximum use of available water (surface & underground) with the help of Pumpsets and water lifts. b) SRI method of Paddy cultivation. c) Cultivation of drought resistant crops & varieties. d) Maximum use of organic manure to enhance water holding capacity. e) Use of micro irrigation systems like drip/sprinkler/rain gun etc. f) Distribution of Agril. Inputs to the affected farmers. g) Crop Insurance |
| Late Season Drought | a) Rain water harvesting structures & watershed development projects should be developed. Maximum use of available water (surface & underground) with the help of Pumpsets and water lifts. b) Life saving Irrigation with high HP Pump machines. c) Plan for early Rabi Crops like oilseeds, pulses, vegetables. d) Cultivation of drought resistant crops & varieties. e) Use of micro irrigation systems like drip/sprinkler/rain gun etc. e) Distribution of Agril. Inputs to the affected farmers. f) Crop Insurance |

In case of Flood:

| Condition | Suggested measures |
|--------------------|---|
| Early Season Flood | a) Drainage system should be developed properly. b) Re-transplanting of Paddy / Direct Seeding of Paddy by Drum Seeder c) Cultivation of Flood resistant varieties. d) Preparation of Paddy Seed-bed in Govt. Farms for emergency situation. e) Establishment of Community Nursery. f) Use of Nitrogenous fertilizer for boosting up the plants. g) Distribution of Agril. Inputs to the affected farmers. f) Crop Insurance |
| Mid Season Flood | a) Drainage of excess water b) Cultivation of Flood resistant varieties c) Distribution of Agril. Inputs to the affected farmers. f) Crop Insurance |
| Late Season Flood | a) Drainage of excess water b) Plan for early rabi crops like oilseeds, pulses, vegetables. c) Cultivation of flood resistant varieties. d) Distribution of Agril. Inputs to the affected farmers. f) Crop Insurance |

To overcome the adverse effect of Flood

Actions to be taken up by the farmers:

1. Staggered sowing of paddy seed bed at 10 days interval for at least 2500 ha.
2. A place of higher elevation to be chosen for raised seed bed.
3. Cultivation of flood tolerant Swaran Sub-I Variety to be followed.
4. To reduce the detrimental effect of sand deposition in cultivated land, sufficient organic matter is to be applied.
5. Use of drum seeder in case of late sowing.
6. Use of Zero tillage for better result in adverse situations.
7. Double transplanting of Paddy will be very much helpful specially after receding flood water during early and mid season flood.
8. In case of late transplanting five to six numbers of seeding per hill to be transplanted and basal dose of Nitrogen to be increased.
9. Where there is no time for rice cultivation –
 - a) Kalai / Arhar may be grown in the post-Kharif season.
 - b) Toria, yellow sarson, lentil, gram, pea, vegetable etc. may be grown early in the Rabi season.

Measures to be taken up by the Agriculture Department:

1. Requirement of seed and fertilizer kit submitted to the higher authority to meet up the contingent need during Kharif 2019-20
2. Staggered Seed Bed at Govt. Farm- 1 acre in each Govt farm, Total: 17 Acre
3. Storing of straw at Govt. Farm for feeding the cattles – 50 MT
4. WBSSC District Manager should supply sufficient quantity of seed if required.

To overcome the adverse effect of Drought**Actions to be taken up by the farmers:**

1. For harvesting rain or runoff water, earthen bunds are to be constructed around the individual plot.
2. Application of organic manure to increase the water holding capacity of the soil.
3. Staggered sowing of rice seed in seed bed at 10 days interval.
4. Cultivation of Sahabhazi variety of paddy may be followed.
5. Closer spacing with higher number of seedlings per hill is to be practised.
6. Direct seeding of rice through zero tillage machines.
7. Cultivation of Arhar, blackgram, groundnut & maize or mixed cropping of maize & arhar in high lands.
8. Use of micro-irrigation systems like drip irrigation, sprinkler, rain gun etc. should be popularized.
9. Mechanical weeding in rice field & use the uprooted biomass of weeds as soil mulch or use other mulching materials like straw in rice field.
10. Not to apply Nitrogenous fertilizer in the soil to restrict weed growth. Foliar spray of Urea or DAP @ 1-2 % may be applied at vegetative growth stage of the crop.

Actions to be taken up by the Agriculture Department:

1. Joint monitoring by District level officers of the department of Agriculture, Irrigation & Waterways and WRIDD to be done to look into the real situation and to find out the ways for supplying Irrigation water from all Irrigation sources and ensuring it at grass root level in the blocks.

2. Water harvesting structures like pond, dug well etc. to be excavated for storing rain water by the departments.
3. Agril Deptt. is trying to popularise micro-irrigation systems like drip irrigation, sprinkler, rain gun etc.
4. Huge numbers of pump sets to be provided to the farmers from ongoing Departmental Scheme.
5. WBSSC District Manager should supply sufficient quantity of seed if required.

Requirement of seed in case of crop damage due to drought or flood(if occur) in Burdwan District

In case of crop damage due to flood / drought (if occur) in early Kharif season:

| Name of Crop | No. of Seedkits | Quantity in M.T. |
|--|------------------------|-------------------------|
| Paddy Seed (early-mid duration variety) @ 6 kg. | 40000 | 240 |

In case of crop damage due to flood / drought (if occur) in late Kharif season:

| Name of Crop | No. of Seedkits | Quantity in M.T. |
|---------------------|------------------------|-------------------------|
| Khesari @ 4 kg. | 8000 | 32 |
| Lentil @ 4 kg. | 20000 | 80 |
| Groundnut @ 15 kg. | 5000 | 75 |
| Gram @ 4 kg. | 4000 | 16 |
| Mustard @ 1 kg. | 30000 | 30 |
| Wheat @ 15 kg. | 5000 | 75 |

Alternate communication plan in case of failure of Mobile Network :

In case of failure of mobile network communication may be made through the following procedure

- Wireless set may be installed in all the police stations under Purba Bardhaman District through which communication will be continued as well as message will be received from IMD, Alipur as Early warning dissemination System.
- GPS set may be provided to the Gram Panchayat Offices for continuation of communication.
- HAM Radio set may be provided to all the Gram Panchayat for continuation of communication
- Walki talky machine may be provided in the effected places.
