FOREWORD

The district, North 24-parganas, has been divided geographically into three parts, e.g. (a) vast reverine belt in the Southern part of Basirhat Sub-Divn. (Sundarban area), (b) the industrial belt of Barrackpore Sub-Division and (c) vast cultivating plain land in the Bongaon Sub-division and adjoining part of Barrackpore, Barasat & Northern part of Basirhat Sub-Divisions

The drainage capabilities of the canals, rivers etc. have been reduced due to unplanned manmade activities and some ecological changes like silting of the rivers etc. So, the flood/heavy water logging has been common occurrence every year in the most parts of the aforesaid sub-divisions. Similarly, Cyclone and High tide has been commonly found in the reverine belts of Basirhat sub-division. Strangely, several focal areas of Gaighata Block of Bongaon sub-division had been found to be hit by tornado several times in the past.

Not all disasters can be predicted or prevented. However, precautionary measures taken within the existing infrastructure, in the form of preparedness, can considerably mitigate the human sufferings, loss of life and property and restore normalcy at the earliest.

The course of a disaster is dependent on how early the same is identified and how effectively specific control measures are applied. The impact of the disaster control measures can be expected to be significant only if proper measures are applied in time. Scarce resources are often wasted in undertaking such measures after the disaster has already peaked and the outcome of such measures in limiting the damage and in reducing human sufferings; morbidity with loss of life and property becomes negligible.

It is therefore, of paramount importance to formulate an action plan to face the situation arising out of the same. The rescue, relief and rehabilitation activities are not the work of a single department, rather constitute best co-ordinated activities amongst the concerned Government departments, 3-tier Panchayat Raj Institutions, N.G.Os., peoples' representatives of Assembly / Parliament, CBOs and the Community as a whole.

Experience of past decades has proved that unprecedented flood, heavy rainfall and cyclones highly affect the normal life and livelihood of people of this densely populated district. The very highly vulnerable costal area suffers most from loss of life and property accompanied by environmental damage.

This plan for the year 2016-17 has been prepared by the Disaster Management Section of the District Administration of North 24 Parganas using information received from the blocks and Government line departments. In this year's plan contact details of more key stake holders and more GPS coordinates of rescue shelters as well as air dropping points have been provided compared to the last years plan. We hope that this plan will be more effectively used by all stake holders in the event of a natural calamity striking this district.

Thanks to the all officials of District Disaster Management Section, North 24 Parganas. Any suggestion for betterment of this plan is always solicited.

**Smt. Antara Acharya, IAS
District Magistrate
North 24 Parganas**

INTRODUCTION

This District Disaster Management Plan for the year 2016-17 for the District of North 24 Parganas has been prepared by the Disaster Management Section of the Office of the District Magistrate, North 24 Parganas. The entire North 24 Parganas district is vulnerable to multi-hazards e.g. natural calamities like Flood, Cyclone, Hailstorm - *Kalbaishakhi*, Earthquake, Drought and Embankment Erosion. In fact there are High Risk Multi-Hazard Zones. Apart from these natural hazards occurrences of man-made disasters like major fire, roadway/ railway/ waterway accidents, industrial/chemical hazards, terrorist attacks etc. are also possible. This disaster management plan has been formulated in the context of both natural and man-made disasters to tackle the multi-hazard risks in the current year 2016-17 and includes the factors like ever-growing population, rapid unplanned urbanization, increasing industrialization, development within high risk zones, environmental degradation, climate change, state and national security, economy and sustainable development etc.

Causes of Flood

There are 18 rivers running through the district and as it is situated at the downstream of these rivers. Embankments of all the rivers are made of Soil and the river beds are getting high day by day due to Siltation. All inhabitants are situated in the area comparatively at the lower level than the water level of river, so they face a water logging in almost every year due to heavy rainfall. Average rainfall of this district is 1579 mm. In the year (2015) rainfall has occurred in 2491.50 mm. Due to heavy rainfall and breach of embankment maximum area of this district are water logged. As a result huge nos. of houses are damaged, agricultural crop, fishery, and other infrastructure like roads, tube wells & schools etc. are also damaged.

BASIC OBJECTIVES:

1. To minimize loss of human lives and property by adopting preparedness measures to effectively handle disaster situations.
2. To make the government and other stakeholder organizations able to get prepared and act in time to manage any disaster in a pro-active preplanned well coordinated manner.

History:	The great epic Mahabharata, Raghuvansa and in some the Puranas refer the Gangetic delta lay between the kingdom of the Suhmas live in Western Bengal and that of the Vangas in Eastern Bengal at the dawn of the history. At the time of Raghu Vansa, the country was dominated by the Vangas. But the naval force of the Vangas were defeated by Raghu, who set up pillars of victory on the islands in the midst of the Ganges. Probably, these islands represented the present area of the district of 24 Parganas. A few details in Ain-i-Akbari reveals that the district formed part of Satgaon revenue division, the jurisdiction of which was from Sagar islands on the south to a little above Palashi on the north and Kabadak river on the east, beyond the Hooghli on the west. The district gained prominence with the events of Sepoy mutiny of 1824 and 1857. Till eighties, the district was named as Twenty four Parganas and later divided into two districts – North 24 Parganas and South 24 Parganas.

HISTORY OF NATURAL DISASTERS IN NORTH 24 PGS. DISTRICT

The District of North 24-Parganas came into being on 1st March, 1986 with the bifurcation of the erstwhile 24-Parganas District into North 24-Parganas and South 24-Parganas Districts. Sundarban is situated at the confluence of river Ganga and Brahmaputra with the Bay of Bengal. Part of Sunderban area is annexed to the District of North 24-Parganas. which covers 6 (six) Blocks viz Sandeshkhali-I, Sandeshkhali-II, Hingalganj, Haroa, Minakhan and Hasnabad. These blocks are surrounded by tidal rivers such as the Ichhamati, Bidyadhari, Kulti, Dansa, Raymangal etc. besides being crisscrossed by numerous creeks and channels.

In past, this district was hit by natural hazards in many occasions. The hazards include Cyclone, Storm Surge, Flood, Earthquake etc. of medium to large intensities. Some instances are mentioned below.

1981: Earthquake of magnitude 4.9 on Richter scale shook north of Sundarban on 26th March (Epicentre Latitude 22.3, Longitude 89.1).

1983: Tornado at Gaighata Development Block.

1988: Very severe Cyclone at Hingalganj Development Block.

1995: Breach of embankment on 15th & 16th May in Basirhat Sub-Division. 1077 nos. houses were fully and 496 houses were partly damaged.

1996: Heavy rainfall occurred on 27th and 28th of October with consequent breach of embankment in Basirhat Sub-Division. 48 nos. of houses were fully damaged.

1998: Flood in Bongaon Sub-Division due to incessant rains and over flow of river Ichhamati. Dates of occurrence were 14.08.98 & 15.08.98. Total 60.30 Sq.km. area and 96,700 people were affected. 10,059 nos. houses were affected out of which 3,457 were fully damaged. 18,483 persons were rescued and sheltered in 112 Relief Camps.

Cyclone of high magnitude severely affected 466 Sq. km of area in 10 Blocks and 2 Municipalities. No. of Cattle lost was 773. 2,16,622 people were affected by the calamity.

1999: The district was affected by Drought during May – June, 1999. Rainfall up to April, 1999 was only 6.5 mm. In the district 7 lakh people, 1,37,887 nos. livestock were affected and from 4% to 40% Boro paddy was lost.

Due to heavy rainfall from 21 to 24.09.1999, a vast area of 14 (fourteen) blocks and 12 (twelve) Municipalities in all the 5 (five) Sub-divisions of the district were water-logged. 4, 50,000 people were affected.

2000: Unprecedented incessant heavy shower from 17.09.2000 to 21.09.2000 followed by very high discharge from the dams and barrages caused huge flood all over the state having highest intensity in about last two centuries. The water level of Churni rose to an unprecedented 11 m against highest

recorded level of 9.798 m in 1978. A vast area of Bongaon Sub-Division and part of Barasat (Sadar) and Basirhat Sub-Division were inundated; some places for more than a fortnight. The year 2000 may be designated as the year of the worst precipitation in terms of quantum, intensity and duration. More than 960 Sq. km. area were affected in the district causing damages to houses, crops, school buildings etc. More than 19 lakhs people were affected and 2,65,000 houses were destroyed or damaged. 652 mouzas were declared as flood affected. Total financial loss was Rs. 62,207 lakh.

2001: There was a severe Thunder Storm on 20.05.2001 at Gaighata Block under Bongaon Sub-Division. The most affected G.P.s were Jaleswar-II, Duma and Dharampur-I. 4 (four) human lives were lost.

2002: On 25.05.2002 embankment of Bermajur G.P. on river Choto Kalagachi under Sandeshkhali-II block breached affecting 2,500 people.

A severe cyclonic storm passed over Sandeshkhali-I, Sandeshkhali-II, Hingalgunj and Minakhan blocks on 11.11.2002 affecting 5483 nos. of people. 195 no. of houses were destroyed and 731 were damaged due to the calamity. The event of crop area damaged was 644.30 hec. Money value of which was Rs. 5,56,82,000/- There was a very severe cyclonic storm on 03.04.2002 at 3AM in Bongaon Sub-division. About 65,000 people were affected. 3(three) human lives were lost in Bongaon block and 5 (five) Goats and 1025 Poultry were lost. The extent of damage caused to power and Housing Sector was Rs. 8.5 lakh and 253 lakh respectively.

2003: Consequent upon the development of low pressure in the Bihar Plateau Region, the SouthBengal districts including North 24-Parganas experienced heavy rainfall during the period from 16.10. 03 to 10.10. 03. Breach of embankments and erosion were reported from Hingalgunj, Sandeshkhali-I and Sandeshkhali-I blocks. Due to the calamity, 14 Blocks in North 24-Parganas district were severely affected . 5,10,958 nos. people were affected and 8,539 houses were fully and 15,131 were partly damaged. Losses in Crop sector and Fisheries sector were Rs.282.35 lakhs and 2303.28 lakhs respectively.

2004: Due to incessant rain during the period from 10.09.04 to 18.09.04 a vast area of Bongaon,Basirhat, Barrackpore and Barasat(Sadar) Sub-Division was water-logged. 8,89,283 people were affected. Agricultural loss was estimated to Rs. 6802.665 lakhs . 359 Mouzas were declared as Flood affected. 18384 dwelling houses were destroyed and 56,865 were damaged in Urban and Municipal areas.

There was a violent storm on 06.10. 04 at 12 noon over paruipara, Biswaspara and Angrail within the jurisdiction of Jhowdanda Gram Panchayat under Gaighata block. Two persons were seriously injured and admitted to Hospital. 29 houses were destroyed.

2006: Due to incessant rainfall vast area of Basirhat, Bongaon, part of Barasat and Barrackpore Sub-division were affected. 8 persons died due to natural calamity during the year 2006.

2007: This District was affected in two phases due to incessant rainfall in 2007. Average rainfall was 1380 mm. Many people were affected.

2008: During the year 2008 this District was affected in different occasions by incessant rain with storm (16.09.2008, 26.09.2008, 25.10.2008). About 74,000 people were affected during the above calamities.

2009: On 25 May, Cyclone AILA hit costal Bengal with a maximum wind speed of 120 kmph affecting over 1.5 million people.

The Situation Report (State Govt.)

Cyclone AILA which hit coastal West Bengal on 25 May, 2009 is described as one of the worst storms to hit the state in many years. Over 5.1 million people have been affected in 16 districts of West Bengal. The damage impact assessment carried out by the government of West Bengal and the United Nations Development Programme (UNDP) reported considerable deaths, of which 25 were caused by a landslide in Darjeeling. Over 500,000 houses were damaged either fully or partially. The storm was especially devastating for farmers who were preparing to harvest rice and other crops. According to media sources, the Sundarbans national reserve forest was worst-hit, as many as three million people lived in the forests. Government rescue operations are underway, with approximately 60,000 people have been rescued and accommodated in government relief camps. Local media reports also indicate that food packets have been dropped by military helicopters in the affected areas.

The Damages due to AILA Cyclone in Basirhat Subdivision only:

Disaster Management Plan 2016-17
Dept. of Animal Resources Development
North 24 Parganas, Barasat

ACTION PLAN FOR CRISIS MANAGEMENT LIKE FLOOD, CYCLONE DROUGHT ETC.
FORTHE YEAR 2016-17

Natural calamities like flood, cyclones are very common in North 24 Parganas District and are normal feature. Therefore, a detailed work plan for tackling such calamities is imperative in the long-term interest of Animal Resources Development of this District.

Considering the above facts, the action plan in respect of Animal Resources Dev. may be divided in three phases:-

- a) Preparedness in anticipation (Pre Disaster).**
- b) Immediate action (During Disaster).**
- c) Delayed action. (Post Disaster Management).**

a) Preparedness in anticipation:

1. Advance planning to keep all departmental staff alert before the onset of monsoon and their subsequent deployment in the eventuality has been made through deployment planning and necessary strengthening.
2. Arrangement for procurement and storage of essential inputs i.e, medicines, vaccines, disinfectants; drinking water etc have been made to save the affected livestock.
3. Animals in the endemic zones are to be vaccinated against different bacterial and viral diseases before onset of disaster.
4. Identification of vulnerable areas and livestock shelters in the safe position is to be settled,
5. Arrangement for opening control rooms at District/Sub-division/Block levels and veterinary teams will be kept ready to proceed promptly.
6. The Deputy Director of Agriculture (Administration), North 24 Parganas vide No.825 dt. 13.04.2016 and nearest Feed Milling Plant at Kalyani (an organization of DAIRPOUL) vide No. 822 dt. 13.04.2016 has already been requested to keep reserve stock of paddy straw and Concentrate feed respectively for anticipated calamity, if any.
7. Arrangement for procurement of paddy straw will be made locally inviting quotation at block level or through existing approved supplier of Haringhata Farm.
8. Administrative authority in the block/sub-division/district level and panchayet functionaries at three tiers and municipal authorities will be contacted in a regular manner to have updating information for calamities and guideline to aware the farmers.
9. Additional deployment of A.R.D. personnel will be arranged in the different areas of affected blocks considering the Severity of disaster.
10. Annual supply of medicines will be completed within June, 2016 to the different field units.
11. A proforma of daily report has been handed over to all the B.I.D.Os. and Veterinary Officers(DVH/SAHC) for proper Reporting system.
12. The District Magistrate/Sub-Divisional Officer/Block Development Officers are requested to provide country Boats/speed boats to the District/Sub-division/Block Levels in consultation with the Panchayet Authorities to combat the situation, if any, for the affected animals.
