

# **DISTRICT DISASTER MANAGEMENT PLAN 2016 PASCHIM MEDINIPUR**

**Flood affected areas.**

**OFFICE OF THE DISTRICT MAGISTRATE, PASCHIM MEDINIPUR**

## FOREWORD

*Disaster management is a process or strategy that is implemented when any type of catastrophic event takes place. The process may be initiated when anything threatens to disrupt normal operations or puts the lives of human beings at risk. Identifying potential disasters makes it possible to create contingency plans, assemble supplies, and create procedures that can be initiated when a given disaster takes place. A truly comprehensive disaster management action plan will encompass a wide range of possibilities that can easily be adopted in the event of one disaster that sets off a chain reaction of other types of disasters in its wake.*

*Paschim Medinipur district in the past has experienced disasters like flood, drought, cyclone etc. In the year 2007 this district has faced four successive floods. In the year 2013 the district experienced five successive spells of flood due to heavy rainfall in upper catchment areas and huge discharge from dams. We have also faced flood during the year 2015. It is a fact that Natural Disasters cannot be prevented. We can minimize the suffering of the affected people by providing assistance to them in case of emergency. Preparation of Disaster Management Plan-2016 is viewed as a part of preparedness with a view to take appropriate action to save human lives and properties in the face of disaster.*

*The Disaster Management Action Plan-2016 is a co-ordinated effort of Disaster Management Section of Paschim Medinipur Collectorate and other line departments. These departments actively engage themselves during the period of disasters like flood, cyclone etc. The action plan and contingency plan of these departments have been incorporated in this Plan.*

*I hope that this plan will be immensely helpful to the Government officers of Paschim Medinipur and will be an important source of information and document in the event of disasters. I further hope that this plan will also prove to be helpful in serving the purpose of saving affected people and mitigating their sufferings with the efforts and dedication of all the persons associated with Disaster Management.*

**Dated:**

**District Magistrate  
Paschim Medinipur**

# **CHAPTER-1**

## **INTRODUCTION**

### **1.1 Background**

The word Disaster means a catastrophe, mishap, calamity or grave occurrence in any area, arising from natural or man-made causes, or by accident or negligence which results in substantial loss of life or human suffering or damage to, and destruction of, property, or damage to, or degradation of environment, and is of such a nature or magnitude as to beyond the coping capacity of the community of the affected area. (Disaster Management Act, 2005)

The world is becoming increasingly vulnerable to natural disasters as well as man-made. From tsunamis and earthquakes to floods and famines, mankind is ever more threatened by the forces of nature. With almost a billion people now living in unplanned urban shanty towns, with deforestation wrecking ecological defence against catastrophic natural events, and with global warming making the force of wind, rain and sun harder to predict and counter, the world is at risk as never before.

**In the Indian context** the country has been traditionally vulnerable to natural disasters on account its unique geo-climatic condition. Floods, droughts, cyclones, earthquake, and landslides have been recurrent phenomena. About 60% of landmass is prone to earthquake of various intensities, over 40 million hectare is prone to flood, about 8% of the total area is prone to cyclone and 68% of the area is susceptible to drought. In the decade 2000-2010, an average of about 4344 people lost their lives and about 30 million people were affected by disaster every year. The lost in terms of private, community and public asses has been astronomical.

### **1.2 Changing Context of Disaster Management and Enactment of DM Act in India and West Bengal**

A profound change in governmental disaster management has occurred during the last decades. Gone are the days of “hunkering down” and riding out the hazard event with a command and control mentality that only focused on clean-up and the rescue of survivors. In its place is an emphasis on the reduction of loss of life and property through mitigation, preparedness, response, and recovery.

The Government of India, in recognition of the importance of Disaster Management (DM) as a national priority, on 23 December 2005 took a defining step by enacting the Disaster Management Act. This is a unique legislation which provides for requisite institutional mechanism for drawing up and monitoring the implementation of the disaster management plans, ensuring measures by various wings of the Government for prevention and mitigating effects of disaster and for undertaking a holistic, coordinate and prompt response to any disaster situation.

The state of West Bengal has already adopted National Disaster Management Act, 2005. Chapter IV of DM Act, 2005 mandates every district in the country to constitute a District Disaster Management Authorities. Articles 31 of DM Act, section of the DM Act, 2005 provides that “there shall be a plan for disaster management for every district of the state. The district plan shall be prepared by the District Authority, after consultation with the local authorities, covering HRVA measures to be taken for prevention with the local authorities, covering HRVA measures to be taken for prevention and mitigation of disaster, capacity building and preparedness measures and response plan. The response plan includes allocation of responsibilities to the depth at local to district level; prompt response and relief, procurement of essential resources; establishment of communication link, and public awareness”. Subsection of Article 31 says that the district plan shall be received and update annually.

### **1.3 Methodology of Developing District Disaster Management Plan**

#### **METHODOLOGY OF PLAN DEVELOPMENT**

- Data collection from all line departments
- Data analysis
- Discussion with experts
- Referring national and international literatures
- Preparation of action plans for departments
- Preparing draft plan document
- Mock drill to check the viability and feasibility of implementation methodology
- Wide circulation for public and departmental comments
- Preparation of the final plan document

### **1.4 Objectives and strategies of the plan**

The major objective of the disaster management plan is to minimize the impact of any disaster and increase the capacity of the administration to have coordinate effort to reduce the impact of any disaster and minimize the human and capital loss.

- To find out the type of risks the district is vulnerable to.
- To measure the vulnerability of life and livelihood and infrastructures to different type of risks.
- To develop a multi-hazard preparedness plan for effective management of different type of disasters the district is vulnerable to.
- Institutionalization of the disaster management in district administration
- To develop strategy for mass awareness on do's and don'ts on different type of disasters.
- To find out the resources of the district.
- To create a cadre of skilled volunteers to respond to different type of disasters.
- To make inter-departmental coordination more effective at the time of emergency.
- Encouraging and empowering the local community to own the disaster management
- Regular update of the resource available in and around the district.
- To strengthen the capacities and resilience of vulnerable community with special emphasis on empowerment of women and establish community level systems for pre, during and post disaster interventions through awareness generation and capacity building

### **1.5. Nodal ministries related to various categories of disasters**

- Earthquakes and Tsunami- MHA/Ministry of Earth Sciences/IMD
- Floods- MHA/Ministry of Water Resources/CWC
- Cyclones- MHA/Ministry of Earth Sciences/IMD
- Drought- Ministry of Agriculture
- Biological Disasters- Ministry of Health and Family Welfare
- Chemical Disasters- Ministry of Environment & Forests
- Nuclear Disasters- Department of Atomic Energy
- Air Accidents- Ministry of Civil Aviation
- Railway Accidents- Ministry of Railways
- Terrorism, bombblast, Riots-Ministry of Home Affairs

### **1.6. Importance of Disaster Management Plan**

It is apparent that this district is prone to natural disasters such as floods, earthquake etc. also, it cannot ignore the man-made disasters. So the district plan is designed as per the present need and the major strategies to respond to any unexpected situation have also been considered. In the district Disaster Management plan, all the disasters will be handled properly following the given response mechanism, like Incident Response System (IRS), use of resource inventory, Standard Operative Procedures (SOP), keeping coordinate with the line agencies and proper community based awareness activities. SOP of line departments is designed to make them alert. It highlights their role and responsibilities during, after and normal time of the disaster.

### **1.7 The main features of Disaster Management plan:**

1. It gives importance to all the disasters equally and helps to mitigate the situation beforehand.
2. All the departments are assigned with their proper role and responsibilities, which are clearly indicated in the SOPs.
3. The District administration has to be alert round the year as disasters may occur anytime, anywhere in the in the district, irrespective of time and location.

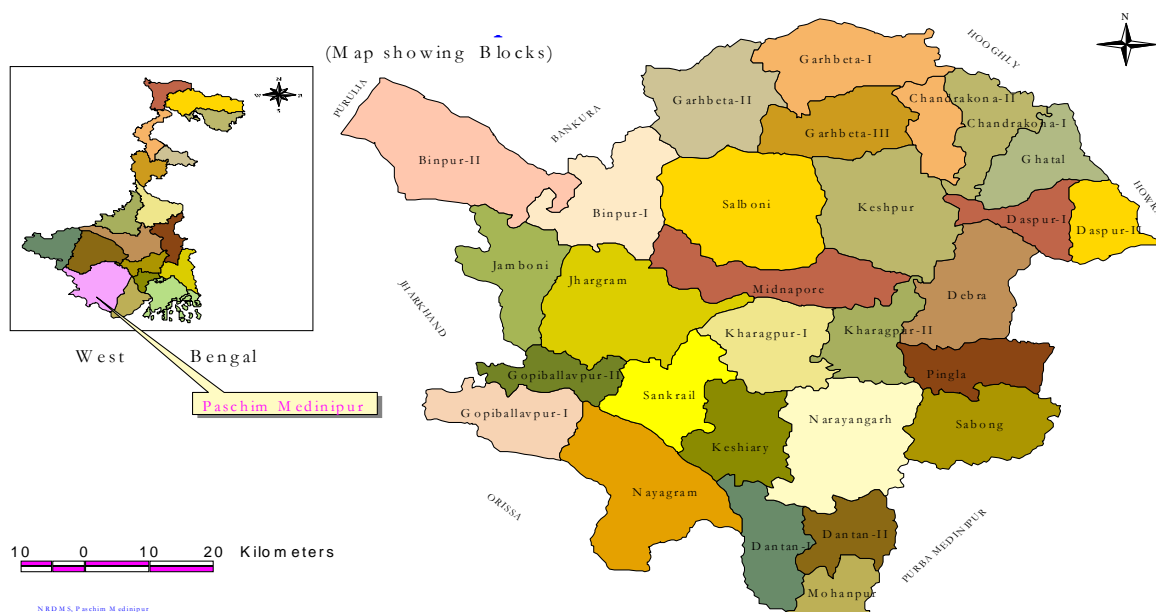

# CHAPTER-2

## DISTRICT PROFILE

### 2.1 Location and boundaries:

Paschim Medinipur, located in the southern part of West Bengal, has been carved from the erstwhile Medinipur district, the then largest district of India, and came into existence in the present form from 1<sup>st</sup> January 2002. It is situated between 22° 57' 10" and 21° 36' 35" North latitude and between 88° 12' 40" and 86° 33' 50" East longitude. Paschim Medinipur is bounded by Bankura district from the northern side and Purba Medinipur district from the south-eastern side. The southern boundary of the district is merged with Balasore and Mayurbhanj district of Orissa and western boundary is merged with Singhbhum and east district of Jharkhand.

The present population of the district is 57 lakh with 18.05 % SC and 14.87 % ST population. Geographical area of the district is 9295.28 Sq. Km. The district is further divided into four Sub-divisions, 29 blocks and 8 municipalities.

**Map-I : District Map of Paschim Medinipur showing Blocks.**

**2.2 Multifarious Regional Diversity:** Paschim Medinipur district represents regional diversity in terms of physiographic, agro-climatic characteristics, economic development, social composition etc. Geomorphologically, the district can be sub-divided into three parts, viz. Chhotonagpur Flanks with hills, mounds and rolling lands in the westernmost part, Rahr Plain with lateritic uplands in the middle part and Alluvial plain of the east with recent deposits. It is hilly in the north-west but represents low basins in the south-east and east. It has drought-affected dry areas in the west but highly wet flood-affected in the east. Dense dry deciduous forest in the west is replaced by semi-aquatic vegetations of marsh lands in the east. It has barren lateritic, non-arable lands in the west and north-west, which gradually changes

with highly productive alluvial soil areas in the central and eastern part of the district. It is the abode of tribes and primitive tribes in the western blocks while most of the other areas are inhabited by all castes of the mass society. It represents cultural diversity across blocks.

**2.3 Topography:** The area of the district is 9295.28 Sq. Km. The general appearance of the district is that of a large and well-cultivated plain, but towards the north and west gently undulations appear, with ridges covered by a thick growth of sal trees and other scrub jungle, while the intervening depression produces rich crops of rice. Partly from the poor fertility of the soil, and also from the ruthless way forest have been cut down in past, large forest trees are scares, but still in the neighborhood of some of the villages, a few fine tamarind, *sal* and *mahua trees* still do remain. The western boundary is more broken and picturesque, for the lower ranges of the Chhotanagpur Hills line the horizon, the jungle assumes the character of forest, and large trees begin to predominate. The soil, however, is lateritic, a considerable area is unproductive, almost uninhabited, especially in the extreme north-west where there are several hills over 1000 feet in height. The remainder of the country is an almost level plain broken only by the sand hills.

**2.4 Natural Division:** Broadly speaking, there are two natural divisions of the district. The metalled road from Raniganj and Bankura, which traverses the district from north to south, passing through the station of Medinipur and onwards to Balasore and Cuttack, may be generally taken as a dividing line between them. To the east of this road, the soil is purely alluvial, the country is flat, and the land is fertile and fully cultivable. To the west, the country is undulating, the high lands of Central India here terminating in long rolling waves of laterite rock, and most of the surface consists of alternative ridges and depressions. The characteristic formation of the district is laterite, which occupies nearly the whole country in the north and west, but in the south and the east it gradually gives way to the ordinary alluvium of the Gangetic delta.

The alluvial portion may be subdivided into two divisions; first, there is a strip of purely deltaic country bordering Hooghly, intersected by numerous river and water-courses, which are subject to tidal influence. These water-streams are usually connected with one another, thereby rendering it to travel by water. This low-lying tract extends for about 20 miles inland from the Rupnarayan and Hooghly. The alluvial deposits seem to cover the final swells of the laterite formation. None of this formation as yet appeared on the surface, but the watersheds between the streams are distinct, and the general elevation of the country is higher. The second division consists of the alluvial tract constituting the remainder of the eastern half of the district. This is monotonous rice plain intersected by numerous waterways and tidal creeks, which are lined with embankments to protect the fields from flood water. Much of the area is waterlogged, and this is particularly the case with the tract bounded by the Kasai River on the south and the Silai River on the north. This latter tract is a low laying depression formed of the combined details of the Kasai and Silai rivers and intersected by numerous Khals. The river beds have been raised by the constant deposit of silt above the level of the surrounding country; the latter has to be protected from inundation by a complicated system of embankments. Many of these unfortunately obstruct the natural drainage of the country with the result that the soil being deprived of its increment of deposit is permanently depressed, while the waterways have become choked with silt and the land below them is waterlogged.

**2.5 River System:** The river system of Paschim Medinipur district consists of the Rupnarayan, the Kansai and the Subarnarekha which enters this district from Singbhum and passes into the Balasore district, where it falls into the Bay of Bengal. The principal tributary of the Rupnarayan is the Silai or Silabati. This river enters Midnapore from the Manbhum district on the north, and follows a tortuous course. It runs fast in an easterly direction through the north of the Medinipur (Sadar) Sub-division, and then

turns to the south east and south through the Ghatal Sub-division. Near Narajole it takes a sharp turn to the north, and eventually it falls into the Rupnarayan at Bhandar, 4 miles below Ghatal. The Silai is navigable throughout the year for a short distance in its lower reaches, which are within tidal influence. It is fed by two small streams from Bankura district on the north, the Purandar and Gopa, and by the Chandur and Kubai in Medinipur its rise in the north-west of the district and flows east till it empties itself into the Silai near Narajole. The Kasai enters the district in the north-west from Bankura. It flows an exceedingly tortuous course, running first south and south-west and then eastwards past the town of Medinipur, which is situated on its north bank. Below Medinipur the channel contracts rapidly, till at Kapastikti, 13 miles lower down, it bifurcates, one small branch going north and eventually into the Rupnarayan, while the main channel runs south-east. The Subarnarekha is the only other river of Paschim Midnapore requiring notice. It enters the district on the north-west from Dhalbhum and pass through the south-west of Medinipur (Sadar) sub-division intersecting Gopiballavpur *thana*. To the South of Dantan it enters Balasore district and finally falls into the Bay of Bengal. The Subarnarekha has a rapid stream with a sandy bed, and its banks are generally high and well defined. In seasons of high flood the river overflows it's left bank about 4 miles above the point where it leaves Paschim Medinipur district to enter Balasore district. The Dulongs is also an important river of the district.

## PASCHIM MEDINIPUR

showing Block and Sub-Divisional Boundary  
(River & Drainage)

**Map-2: Rivers and Drainage across Paschim Medinipur district**

## **2.6 History of disasters in the district:**

1. A devastating super cyclone & flood occurred in the year 1942 October, in Contai Sub-Division, due to which approximately 60,000 people died. Number of persons died 6,00,000 (approx.). After the said natural calamity, the worst famine also broke out.
2. In the year 1967 August, Contai Sub-division had to face a severe flood due to heavy rain. A huge number of people were rendered homeless. The Government and N.G.O had provided adequate supplies of food and shelter.
3. A devastating flood occurred in September 1978 September. A huge number of persons and cattle died. A large number of persons had to stay in the flood shelter; many of them had to take shelter in big trees. Government NGO's and many philanthropic organizations rushed and rescued the unfortunate flood victims.
4. A severe cyclone with a tornado-like effect hit 3 blocks of the district of Midnapur District on 24.03.1998 at around 2.00 to 3.00 P.M. The number of people affected by that tornado was around 26400. The number of affected mouzas was 18 with the total area affected being 3854 hectares.
5. The district had to face a drought in 1998 where crop damage had been more than fifty percent.
6. The district had to face a flood in 1999. Total 56131 numbers of houses were damaged and 45 lakhs (approx.) population was affected.
7. The district had to face a severe drought in 2002 and it affected 24 blocks out of 29 blocks.
8. The District had to face severe flood in the year 2005 in which more than 5 lakh people in 17 numbers of blocks were affected.
9. In the year 2007 severe flood occurred in four successive rounds causing large scale devastating damage of dwelling houses, standing crops and public properties. The death toll was 97. Army and Air Force authority had to be deployed for rescue and relief of the marooned people. Out of 29 total blocks of this district, 25 blocks were affected in that flood.
10. Aila also hit an extensive area of this district in May, 2009. Heavy rainfall added with release of water from the dams during 1<sup>st</sup> quarter of September, 2009 affected some areas of this district especially in Ghatal Sub-Division.

## **2.7 Drought & Cyclone Susceptibility:**

The experiences of drought and flood are common in the district. The flood prone area is about 142647 ha. (Ghatal & part of Kharagpur sub-divisions). Draught prone area is about 335248 ha (Jhargram and Sadar sub-divisions). Ghatal and the Southern parts of Kharagpur sub-divisions are affected by water logging during the rainy season. As a result, there is frequent loss of crop. Sabang, Pingla and Narayangarh block in Kharagpur sub-division often suffer from such losses. Many areas in Jhargram sub-division have an undulating topography and laterite soil, which is unsuitable for large-scale cultivation. Drought affects the population here frequently and causes damage to the limited agriculture in the area, affecting food security of the people living here. Though the district does not have a coastline, it is affected frequently by the cyclones during the months of October and November and untimely rains during April and May.

The climate is tropical and the land surface of the district is characterized by hard rock uplands, lateritic covered area, and flat alluvial and deltaic plains. Extremely rugged topography is seen in the western part of the district and rolling topography is experienced consisting of lateritic covered area. These rolling plains gradually merge into flat alluvial and deltaic plains to the east and south east of the district. The soil is fairly fertile.

## 2.8 Account of precipitation & temperature:

Normal rainfall in the district is around 1400 – 1500 mm. However, for the last few years, it has been highly erratic in nature.

Average temperature of the district varies widely across seasons, varying between maximum of 40.3 degree Celsius and minimum 10.3 degree Celsius in 2014. The climate is characterized by hot summer, cold winter, abundant rainfall and humidity. Rainfall fluctuates widely over years and concentrates over a few months of a year under monsoon.

| Latitude    |             | Longitude   |             | Temperature (Degree Celsius) |          | Rainfall Normal (m.m.) | Rainfall Actual (m.m.) |

| 22°57' 10// | 21°36' 35// | 88°12' 40// | 86°33' 50// | 40.3                         | 10.3     | 1537                   | 1122.1                 |

**Table-1 : : Geographical Location and Climate of Paschim Medinipur District**

## 2.9 Some Indicators of Paschim Medinipur vis-à-vis the whole of West Bengal

- It ranks 1<sup>st</sup> among 19 districts of the state of West Bengal in sex ratio (961) followed by Bankura and Purulia (953), Murshidabad (952), Dakshin Dinajpur (950), the all-West Bengal average being 934 in 2001.
- It ranks 2<sup>nd</sup> in terms of geographical area (9295.28 sq. km.), next to South 24-Parganas (9960 sq. km.) but is followed by Burdwan (7024 sq. km.) and Bankura (6882 sq. km.)
- It ranks 3<sup>rd</sup> in terms of rural population (45.76 lakh) following South 24-Parganas ( 58.20 lakh) and Murshidabad (51.33 lakh) but is followed by Burdwan (43.48 lakh), North 24-Parganas ( 40.83 lakh) and Purba Medinipur ( 40.51 lakh) as in 2001.
- It ranks 4<sup>th</sup> in terms of percentage of ST population (14.87) following Jalpaiguri ( 18.87), Purulia (18.27) and Dakshin Dinajpur (16.12).

**2.10 Natural Resources:** Paschim Medinipur is rich in a variety of environmental resources like land, forest and human resources. As per Census of India, total geographical area of Paschim Medinipur district in 2001 (9.75 thousand sq. km.) accounted for 11.01 per cent of the total geographical area of the state (88.75 thousand sq.km.). Total forest area of the district was 1.70 thousand sq. km. which accounted for 14.31 per cent of the total forest area of the state (11.88 thousand sq. km.).

| District/<br>State | 2003-04                       |                            |  | 2004-05                       |                            |  |

**Table 2: Forest Areas and its Percentage to Total Reporting Area in Paschim Medinipur District vis-à-vis the Whole of West Bengal, 2003-04 & 2004-05**

Source: Government of West Bengal, *District Statistical Handbook*, Paschim Medinipur 2006

Similarly, percentage shares of the district to all West Bengal area under orchard, permanent pasture and grazing land, barren and unculturable waste, culturable waste, fallow land other than current fallow were above its percentage share to its geographical area. Percentage shares of the district in non-agricultural area, urban area, and irrigated area were, however, below that in geographical area of the State, which indicates that there is deficiency of the district in these indicators and demands planned intervention of the government and panchayats in these areas for improvement of economic conditions of people of this district.

**Table 3: Some Geographical Features of Paschim Medinipur District vis-à-vis the Whole of West Bengal**

Source: Government of West Bengal, *Statistical Abstract* 2005

### 2.11 Demographic profile:

Inhabited villages (over 7500) of the district show highly differential features and indicators of human development. While there are pockets/agglomerations of highly prosperous and developed villages in the eastern part of the district, there are also villages of distress in the western part. 637 villages have been identified by the Government of West Bengal as backward villages that belong mostly to the western part. There is high concentration of backward villages in the drought prone blocks.

Net area under cultivation is 585222 ha. (63 per cent of the reporting area of the district), whereas 18932 ha. (2 per cent), 20132 ha. ,(2.16 per cent) and 141290 ha (15.20 per cent) of land come under category of culturable waste, barren and uncultivable and area under non-agricultural use respectively.

As per *Census of India*, total population of the 29 blocks of Paschim Medinipur district was 23.80 lakh in 1961, which increased in 2001 to 51.93 lakh accounting for 6.48 per cent of the total population of the State. The rate of growth of population of the district during 1961 to 1971 was 27.52 per cent, which has come down to 15.76 per cent during 1971 to 2001. The decadal growth rate of population of the district during 1971 to 2001 was below that of the State as a whole.

| District/ State   | Population (in lakh) |        |        |        |        | Growth rate of population<br>(Per cent) |             |             |             |

## 2.12 Land Use Pattern, Cropping Intensity and Irrigation

- Distribution of geographical area of the district and land use pattern across shows that Binpur-II block has the largest geographical area followed closely by Jhargram and Salboni and the smallest block being Mohanpur.
- Narayangarh block records the largest net cropped area, the smallest being again Mohanpur.
- Area under pasture and orchard is largest in Salboni followed by Jhargram, the smallest being observed again in Mohanpur.
- It is revealed that Pingla block recorded in 2005-06 the highest cropping intensity (199 per cent) followed by Daspur-I, Sabang and Garbeta-I, Jhargram. Sankrail and Jamboni registering the lowest.

The Kangsabati Dam located on the Kumari and Kangsabati River at Mukutmonipur in Bankura District is the main irrigation scheme which provides water in agrarian fields for both Kharif and Rabi crops.

Ground water supports by dint of deep tubewells and shallow tubewells serve as supplementary irrigation.

**Table 12: LAND HOLDING PATTERN**

## CHAPTER -3

### HAZARD, VULNERABILITY AND RISK ASSESSMENT

A Hazard, Risk and Vulnerability Assessment (HRVA) examine the **hazards** that may impact a community and the risk that each hazard event poses to the community as a whole and to vulnerable elements of the community. The objective of the Hazard, Vulnerability and Risk Analysis is to:

1. Investigate prominent natural and human caused events.
2. Identity any threat that may require timely response to protect lives, property and reduce economic loss.
3. Identity vulnerable groups who need more concern during any calamity.

#### 3.1 WHAT IS A DISASTER

1. Disaster may be defined as an occurrence arising with little or no warning, which causes or threatens heavy loss of life and property and, therefore, requires mobilization of resources that are to be provided by the emergency services.
2. Disaster is a crisis resulting from failure in human interaction with the physical and social environment. Disaster outstrips the capacity of individual and society to cope with the adversity.

#### 3.2 CLASSIFICATION OF DISASTER

| Natural     | Man-made                  | Activity based      |
|-------------|---------------------------|---------------------|
| Earth Quake | Epidemics                 | Industrial Accident |
| Flood       | Terrosit attack           | Road Accident       |
| Cyclone     | Climate change related    | Rail Accident       |
| Land slide  | Communal, Ethnice violane | Air Accident        |
| Epidemics   |                           | River Accident      |

#### 3.3 WHAT IS A CYCLONIC STORM

A cyclonic storm is a rotational low pressure system in tropics and is a vast violent whirl wind 150 to 800 km. across, 1 to 17 km. High, spiraling around a centre and progressing along the surface of the sea at a rate of 300 to 500 km.

“AS REGARDS CYCLONE THE ENTIRE PASCHIM MEDINIPUR DISTRICT IS A VERY HIGH DAMAGE RISK ZONE”.

-- (AS per UNDP Disaster Risk Management Programme)

##### 3.3.1 STATUS OF CYCLONE WARNING CENTRES IN PASCHIM MEDINIPUR.

- a. There is only one cyclone warning dissemination system at Paschim Medinipur. The cyclone warning system has been installed in Relief Section of Paschim Medinipur Collectorate. It is not functioning properly at present and will be repaired early by the IMD, Kolkata.
- b. One Satellite Phone was provided to the Office of the District Magistrate, Paschim Medinipur earlier and it has been sent to the Disaster Managmenet Department, of Government of West Bengal for repairing.

Usually, all S.D.O.s / B.D.O.s are instructed to arrange for transmission of Cyclone message if any, at respective areas through announcement as and when required / instructed. All other concerned departments are instructed to arrange for emergent relief accordingly.

### **3.3.2 FOUR STAGE CYCLONE WARNING SYSTEM:**

**Stage I :** With the formation of Depression over Bay of Bengal, the Chief Secretary, Govt. of West Bengal is informed by the Director General of Meteorology, IMD about its formation, location and potential danger.

**Stage II :** When the depression is likely to intensify into a cyclone storm or of higher intensity and likely to hit West Bengal coast within next 48 hours the numbered cyclone alert messages are issued at regular intervals and the message is passed to the Govt. of West Bengal over fax also to AIR/TV for repeated broadcast. All the concerned officials are advised to remain in touch with IMD for latest development. Fishermen warnings are also issued regularly.

**Stage III :** When the CS/SCS/VSCS/Super Cyclone is likely to hit West Bengal coast within 24 hours, numbered cyclone warning bulletins are issued six times a day to Govt. of West Bengal and also to AIR/TV for repeated broadcast.

**Stage IV :** After crossing the coast a de-warning message is issued.

### **3.3.3 STANDARD PRECAUTIONARY MEASURES**

#### **A. BEFORE CYCLONE SEASON**

1. Check houses, secure loose tiles, repair doors and windows.
2. Remove dead or dying trees, anchor movable objects like lumber piles, loose sheets, garbage cans, sign boards etc.
3. Demolish condemned buildings.
4. Keep hurricane, torch lights ready for use with kerosene and dry cells.
5. Keep transistor set ready with dry cells.
6. Keep some wooden boards and paper tapes ready for boarding glass windows.

#### **B. WHEN CYCLONE THREATENS**

1. Keep radio on - listen to latest weather bulletin / warning. Pass on information to others.
2. Avoid being misled by rumours.
3. Board up glass windows - provide strong support to outside doors.
4. If wooden boards not available, paste paper strips on glasses.
5. Get extra dry food - store extra drinking water.
6. Keep hurricane, lantern, torch handy.
7. Make provisions for children and adults requiring special diets.
8. Kerosene tin, cans, agricultural implements garden tools and other objects become weapons of destruction in strong winds - store keep them in covered room.
9. Be sure that window / door on opposite side of wind can be opened.
10. Be alert for high waters where rivers may flood due to heavy rains.
11. Well build double storied buildings on high ground may serve as cyclone shelter.
12. Get away from low lying areas early if advised to evacuate - do not run risk of being marooned.
13. Move valuable articles to upper floors to minimize flood damage.
14. Remove cattle to safer places.
15. Remember if "eye" passes over this area, there will be full in wind for about half an hour followed by stronger winds from opposite direction.
16. Be calm and meet emergency.

### **C. POST CYCLONE MEASURES**

1. Remain in shelters until advised to return home.
2. Get inoculated at the nearest hospital.
3. Keep away from loose and dangling wire from electric lamp post.
4. Report anti-social activities, if noticed, to police.
5. Drive vehicles carefully.
6. Report actual losses to appropriate authorities without exaggeration.
7. Health dept. Should disinfect wells or other drinking water sources.
8. Help removing dead bodies and carcasses for immediate disposal.

#### **3.3.4 IDENTIFICATION OF CYCLONE PRONE AREAS OF THIS DISTRICT**

Dantan-I & II, Mohanpur, Narayangarh, Sabong, Keshiary and Nayagram Blocks are the most vulnerable blocks which are prone to cyclonic storm. Other parts of this district may also be affected.

**Standard precautionary measures as advised by the Disaster Management Department have been widely circulated to the Block, Municipal and Sub-Divisional authorities. They have also been directed to disseminate the warning messages to the public at large on receipt of alarm/weather forecast from the Metrological Department, Kolkata.**

**The block authorities of cyclone prone areas have been requested to prepare a contingent plan for combating cyclonic storm. A community based Disaster Management Training has been imparted to the local youths by the Civil Defence Department of the Government so that those trained personnel be deployed for rescue and relief operations etc. during disaster period.**

### **3.4 DROUGHT**

Drought has been described as a “creeping disaster” in the United Nations Publications. Thus emphasizing that a situation of drought develops gradually given sufficient warning of its coverage extents and intensity unlike a flood, cyclone or earthquake which offers little or no time and little opportunity for immediate planning and preparedness.

One of the essential preparatory measures is to keep a close watch on the behaviors of Monsoon and to initiate advance action to remove or minimize the unfavourable impact of weather conditions.

#### **3.4.1 Action Plan for Drought:**

A large portion of Paschim Medinipur District is a drought-prone area. This is due to undulating topography, laterite and porous soil having a little water holding capacity. Almost the whole western side of the district faces drought every year. The district had to face a severe drought in 2002 and it affected 24 blocks out of 29. As a result, cultivation of Aman paddy hampered tremendously and cattle lives were also affected. People of those 24 blocks suffered a lot due to prevailing drought situation.

#### **3.4.2 Objectives:**

1. Focus on employment generation;
2. Speed up the pace of development creating employment and productive assets which would trigger the overall development;
3. Provide income generation activities to the affected population through SHGs for creating productive assets in affected areas e.g. water tanks, desilting of drainage canals, etc.
4. To create at least 1.5 lakh additional mandays per month per 1 lakh population during next 4 months.

### 3.4.3 Suggestive areas of intervention:

1. Excavation / re-excavation of ponds and tanks for harvesting rain water;
2. Construction of field channels of RLI / DTW,
3. Construction of water harvesting structures and cross-bundhs on the rivulets / perennial water sources for cultivation of Rabi crops;
4. Development of waste lands;
5. Intensification of development activities in afforestation;
6. Repair / reconstruction of village roads;
7. Special wage employment programme for women/SC/ST population;
8. Regular monitoring of foodgrains supplies – prioritization on availability of foodgrains for wage employment programmes;
9. Activating self-help groups for income generation.

### 3.4.4 Action points for the Block / Gram Panchayat:

1. Changes in annual action plan already prepared under NREGS, if necessary, to combat the prevailing situation;
2. Fill up the ponds with water by connecting this with canals in advance;
3. Dove tailing of various schemes towards drought management in close coordination with all departments functioning at the district level;
4. Enhance the water harvesting structures;
5. Identify lands for eligible works;
6. Employment generation in suitable schemes in consultation with the Agriculture, I &W, Fishery, Forestry, Animal Resource and PW Deptts.
7. Activate SHGs for income generating activities;
8. Labour intensive works should be given top priority;
9. Awareness generation among the people for water harvesting and water recharging / preventing moisture evaporation.

| Risk Level                                | Extent of damage   |
|---|--|
| <b>Damage risk level for earthquake</b>   |  |
| High Damage Risk (H)                      | Gaps in walls; parts of buildings may collapse; separate parts of the building lose their cohesion; and inner walls collapse   |
| Moderate Damage Risk (M)                  | Large and deep cracks on walls fall of chimneys on roofs.  |
| Low damage Risk (L)                       | Small Cracks in walls; fall of fairly large pieces of plaster, pantiles slip off; cracks in chimneys, part may fall down.  |
| <b>Damage Risk levels for Wind Storms</b> |  |
| Very High Damage Risk (VH)                | Generally similar to: High Risk” but damage is expected to be more widespread as in the case of cyclonic storms.   |
| High Damage Risk (H)                      | Boundary walls overturn, walls in house and industrial structures fail; roofing sheets, and tiles or whole roofs fly; large scale destruction of life-line structures such as lighting and telephone poles, a few transmission line towers / communication towers <i>may</i> suffer damage; and non engineered / semi constructions suffer heavy damage. |
| Moderate Damage Risk (M)                  | Loose tiles of clay fly, roofs sheets fixed to battens fly; moderate damage to telephone and lighting poles; moderate damage to non-engineered/semi-engineered buildings.  |
| Very Low damage Risk (VL)                 | Loose metal or fibre cement sheets fly; a few lighting and telephone poles go out of alignment; sign boards hoardings partially damaged; well detailed non-engineered/semi-  |

|                                     |   |
|-------------------------------------|---|
|                                     | engineered buildings suffer very little damage.   |
| <b>Damage Risk levels for Flood</b> |   |
| Very High Damage Risk (VH)          | Total collapse of buildings; roof and some walls collapse; floating away of sheets, thatch etc; erosion of foundation; severe damage to life line structures and systems.   |
| High Damage Risk (H)                | Gaps in wall; punching of holes through wall by flowing water; parts of buildings may collapse; light roofs float away; erosion of foundation, sinking or tilting; undercutting of floors, partial roof collapse. |
| Moderate Damage Risk (M)            | Large and deep cracks in walls; loss of belongings; damage to electric fittings.  |
| Low damage Risk (L)                 | Small cracks in walls; fall of fairly large pieces of plaster   |
| Very Low damage Risk (VL)           | Fine cracks in plaster; fall of small pieces of plaster.  |

**Table 13: Damage Risk Level for Earthquake, Wind Storms & Flood**

### 3.5 RISK ANALYSIS

#### ➤ Flood

The main reasons for flood in the district are as following-

1. A dam at the confluence of river Kangsabati and river Kumari at Ambikanagar in the district of Bankura was constructed for providing irrigation as well as insurance against drought and moderate floods in the area. Before construction of Dam, there was free flow through the river and the river was capable to carry adequate floodwater. After construction of Dam, water carrying capacity of the river has been reduced gradually due to siltation of the river bed and non-release of flushing dose from the dam time to time.
2. The down stream of the river gets silted up constantly due to tidal effect.
3. Besides, this lower part of the river has been jacketed by putting up and raising of ex-zamindary bundhs.
4. Due to the gentle longitudinal slope of the river bed it has lost drainage efficiency.
5. Construction of boro-bundhs across the river for Rabi and Boro irrigation are also causing siltation of the river-bed.
6. Other rivers of the district such as Keleghai, Subarnarekha, Silabati, Rupnarayan are also causing floods due to the same reasons.
7. The major cause of flood in Kangsabati basin is not the local rainfall, but the spill way discharge of water from Kangsabati Dam. If the release of water from Kangsabati Dam can be regulated in a proper way, intensity of flood can be reduced.

#### **The average rain fall of the district since 2006**

| Year | Total rainfall |
|------|----------------|
| 2006 | 1298.8 mm.     |
| 2007 | 2106.0 mm.     |
| 2008 | 1780.44 mm.    |
| 2009 | 1270.1 mm.     |
| 2010 | 1001.1 mm.     |
| 2011 | 1717.9 mm.     |
| 2012 | 1113.3 mm.     |
| 2013 | 2331.26 mm     |
| 2014 | 1157.163 mm    |
| 2015 | 1449.7 mm      |

**AVERAGE ANNUAL RAINFALL – 1600 MM**

**TABLE 14: REPORT ON RAIN FALL OF THE DISTRICT**

|     |           |  |
|-----|-----------|--|
| 1.  | Ghatal    | Operated by Irrigation & Water Ways Department |
| 2.  | Balichak  |  |
| 3.  | Lachmapur |  |
| 4.  | Garhbeta  |  |
| 5.  | Sabong    |  |
| 6.  | Midnapore | Operated by Agriculture Department             |
| 7.  | Pingla    |  |
| 8.  | Sabong    |  |
| 9.  | Khirpai   |  |
| 10. | Jhargram  |  |

**Table 15: Rainfall gauge station**

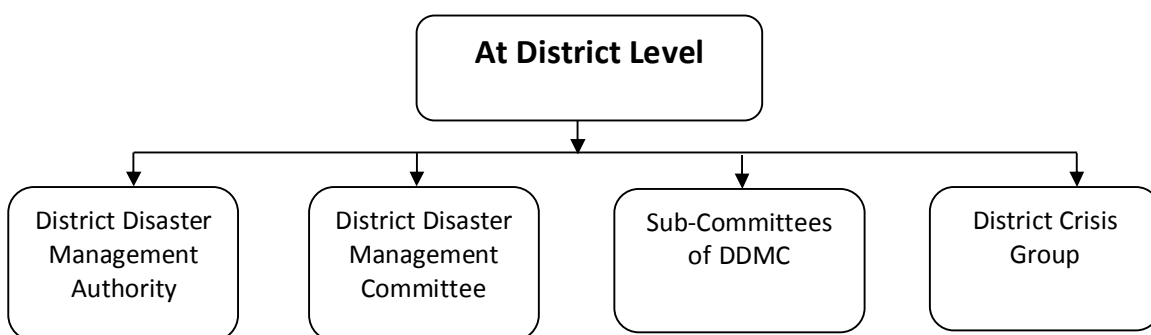

**Following steps should be taken to ensure prompt action:**

1. During the rainy season, special importance should be given to the collection and dissemination of report on the rainfall in the district particularly in the catchment areas of the Kangsabati, Rupnarayan, Keleghai, Kapaleswari, Kshirai and Silabati rivers.
2. The discharge of water from Kangsabati and D.V.C. dams should be monitored and in the case of the emergency discharge of water, message should be transmitted on an emergent basis.
3. The Assistant Engineer, Central Water Commission, Paschim Medinipur should send reports regularly on discharge of water from Durgapur barrage and Kangsabati dam.
4. Reports of water level in important rivers as well as warning received from Indian Meteorological Department, Kolkata should be communicated to Block level forthwith.
5. The Executive Engineers, Midnapore West Division, Midnapore East Division and Kangsabati Canal Projects are requested to send reports on water level at various gauge points on important embankments regularly during monsoon.
6. The Principal Agricultural Officer, Paschim Medinipur should send daily rainfall reports at various rain gauge stations under his jurisdictions.
7. Early receipt of the information of the discharge from D.V.C. is important for assessment of flood situation and taking precautionary measures particularly for Ghatal Subdivision.

## CHAPTER- 4

### DISASTER MANAGEMENT: FUNCTIONAL STRUCTURE IN THE DISTRICT

The disaster management will be more effective and sustainable if it is institutionalized. For this purpose Government of India has already passed the Disaster Management Act, 2005 Act No.53 of 2005, on 23<sup>rd</sup> December, 2005, which has already been adopted by Government of West Bengal. The Government of West Bengal, in exercise of powers conferred by the Act, has established the West Bengal State Disaster Management Authority vide Notification No.1281-FR-1<sup>st</sup> August, 2007 and also established District Disaster Management Authority vide Notification No.1291-FR-1<sup>st</sup> August 2007. The District Magistrate is overall in charge for the entire disaster management activities in the District. As per Section 28 of the Disaster Management Act, 2005, the District Authority may constitute one or more Advisory Committee and District Disaster Management Committee for better implementation of disaster management activities in the district.

#### 4.1 District Disaster management authority

As per Notification No.1291-FR-1<sup>st</sup> August, 2007 the District Disaster Management authority consisting Chairperson and six members having Head Quarter at District level has been established. It acts as the district planning, coordinating and implementing body for disaster management and take all measures for the purpose of Disaster Management in accordance with the guidelines laid down by the National and the state Authority

#### District Disaster Management Authority (D.D.M.A.) (GO No.1308-FR dated 01.08.2007)

1. Collector of the District: **CHAIRPERSON**
2. Sabhadhipati of Zillah Parishad: **CO-CHAIRPERSON**
3. Addl. District Magistrate (Disaster Management) : **CEO, Ex-officio Member**
4. Superintendent of Police: Ex-officio Member
5. Chief Medical Officer of Health: Ex-officio Member
6. Executive Engineer, Irrigation : Ex-officio Member
7. All Sub-Divisional Officers : Ex-officio Member

At the District Level, there should be a District Disaster Management committee, at Block Level, there should be a Block Disaster Management Committee and at village level there should be village level there should be village Disaster Management Committee.

Apart from these disaster management committees, at each level there should be a disaster management plan as per vulnerability to disaster of that particular area along with the various task forces like search and rescue, first aid, early warning system, food management, shelter management, dead body disposal force etc.

**At the Village Level,** Panchayat are the decision making bodies of all development activities in the villages. Therefore, every Panchayat should have a Village level Disaster Management Committee (VDMC) headed by the Pradhan which is responsible for carrying out activities from Planning to Execution in Disaster Management. There should be a separate village disaster management plan for every village as per vulnerability to disaster of the particular village. The plan encompasses prevention, mitigation and preparedness measures. The VDMC chaired by Pradhan includes, ward members, gramsevak, local Government functionaries including doctors/paramedics of primary health centers located in the village, primary school teachers etc. also a search and rescue team as well as first aid team have to be set up and trained at every village. The Disaster Management Teams at the village level will consist of members of youth organizations like Nehru Yuva Kendra and other non-governmental organizations as well as able bodied volunteers from the village. The teams are to be provided basic training in evacuation, search and rescue, first aid trauma counseling etc.

**At Sansad Level,** the village where Sansad members are members of VDMC they should get involved in taking all sort of major decisions related to Disaster Management, whether it is the Disaster Management Preparedness Plan or preparation to respond during the disaster. They are important identities in the village representing the community. **The Disaster Management Committee will review the disaster management plan at least once in a year.** It would also generated awareness among the people in the village about do's and do not do's for specific hazards depending on the vulnerability of the village.

**At Block Level,** every Block in the district should have a Block Disaster Management Committee headed by Chairperson Panchayat Samiti and all line departments at block level are its members.

**At District Level,** the disaster management committee should be constituted under the chairmanship and co-chairpersonship of Deputy Commissioner and Chairperson respectively.

The District Disaster Management Authority shall act as the District Planning; coordinating and implementing body for disaster management and take all measures for the purpose of disaster management in the district in accordance with the guidelines laid down by the National Authority and the State Authority.

#### **4.1.1 The role of District Disaster Management Authority**

- I. Prepare a disaster management plan including district response plan for the district;
- II. Coordinate and monitor the implementation of the National Policy, West Bengal State Disaster Management Policy, national Disaster Management plan, West Bengal Disaster Management Plan and District Disaster Management Plan;
- III. Ensure that the areas in the district vulnerable to disasters are identified and measures for the prevention of disasters and the mitigation of its effects are undertaken by the departments of the Government at the district level as well as by the local authorities.
- IV. Ensure that the guidelines for prevention of disasters, mitigation of its effects, preparedness and response measures as laid down by the National Authority and the West Bengal State Authority are followed by all departments of the Government at the district level and the local authorities in the district;
- V. Give directions to different authorities at the district level and local authorities to take such other measures for the prevention or mitigation of disasters as may be necessary.
- VI. Lay down guidelines for prevention of disaster management plans by the departments of the Government at the districts level and local authorities in the district;

- VII. Monitor the implementation of disaster management plans prepared by the departments of the Government at the district level.
- VIII. Lay down guidelines to be followed by the Departments of the West Bengal Government at the district level for purpose of integration of measures for prevention of disasters and mitigation in their developmental plans and projects and provide necessary technical assistance therefore;
- IX. Monitor the implementation of measures referred to in Item N.
- X. Review the state capabilities for responding to any disaster or threatening disaster situation in the district and give directions to the relevant departments or authorities at the district level for their up-gradation as may be necessary.
- XI. Review the preparation measures and give directions to the concerned departments at the district level or other concerned authorities where necessary for bringing the preparedness measures to the levels required for responding effectively to any disaster or threatening disaster situation;
- XII. Organize and coordinate specialized training programmes for different levels of officers, employees and voluntary rescue workers in the district;
- XIII. Facilitate community training and awareness programmes for prevention of disaster or mitigation with the support local authorities, government and non-governmental organisations;
- XIV. Set up, maintain, review and upgrade the mechanism for early warnings and dissemination of proper information to public;
- XV. Prepare, review and update district level response plan and guidelines;
- XVI. Coordinate response to any threatening disaster situation or disaster;
- XVII. Ensure that the departments of the Government at the district level and the local authorities prepare their response plans in accordance with the district response plan;
- XXVIII. Lay down guidelines for, or give direction to, the concerned department of the Government at the district level or any other authorities within the local limits of the district to take measures to respond effectively to any threatening disaster situation or disaster;
- XIX. Advise, assist and coordinate the activities of the Departments of the Government at the district level, statutory bodies and other governmental and nongovernmental organisations in the district engaged in the disaster management;
- XX. Coordinate with, and give guidelines to, local authorities in the district to ensure that measures for the prevention or mitigation of threatening disaster situation or disaster in the district are carried out promptly and effectively;
- XXI. Provide necessary technical assistance or give advice to the local authorities in the district for carrying out their functions;
- XXII. Review development plans prepared by the Departments of the Government at the district level, statutory authorities or local authorities with a view to make necessary provisions therein for prevention of disaster or mitigation.
- XXIII. Examine the construction in any area in the district and, if it is of the opinion that the standards for the prevention of disaster or mitigation laid down for such construction is not being or has not been followed, may direct the concerned authority to take such action as may be necessary to secure compliance of such standards;
- XXIV. Identify buildings and places which could, in the event of any threatening disaster situation or disaster, be used as relief centres or camps and make arrangements for water supply and sanitation in such buildings or places;
- XXV. Establish stockpiles of relief and rescue materials or ensure preparedness to make such materials available at a short notice;
- XXVI. Provide information to the State Authority relative to different aspects of disaster management;
- XXVII. Encourage the involvement of non-governmental organisations and voluntary social-welfare institutions working at the grassroots level in the district for disaster management;
- XXVIII. Ensure communication systems are in order, and disaster management drills are carried out periodically;

- XXIX. Perform such other functions as the West Bengal Government or the West Bengal Disaster Management authority may assign to it or it deems necessary for disaster management in the district.

#### **4.2 Disaster Management Committee (DDMC)**

Disaster is caused by various types of calamities and each calamity creates its own problems. To handle and solve all such problems, a well knit organisation and trained man-power is required and team or high level officials required for managing the disaster. To minimize the effects of disaster, proper planning and coordination at the level of the Chairperson of the District Disaster Management Authority is must. Therefore, District Disaster Management Committee (DDMC) under the chairmanship of Deputy Commissioner should be formed. The Committee should meets once in a year under the chairmanship of the Deputy Commissioner to review the overall mitigation and preparedness activities in respect of Disaster management in the district. The Committee should consists of the following functionaries-

#### **DISTRICT DISASTER MANAGEMENT COMMITTEE, PASCHIM MEDINIPUR**

- |   |                  |
|---|------------------|
| 1. The Sabhadhipati, Zilla Parishad, Paschim Medinipur                                  | Chairman.        |
| 2. The District Magistrate, Paschim Medinipur   | Vice-chairman    |
| 3. The Additional District Magistrate (Gen), Paschim Medinipur                          | Member Secretary |
| 4. The Superintendent of Police, Paschim Medinipur                                      | Member           |
| 5. The Karmadhakshya, Tran Sthayee Samity, Zilla Parishad, Paschim Medinipur.           | Member           |
| 6. The Chief Medical Officer of Health., Paschim Medinipur                              | Member           |
| 7. The Executive Engineer, P.W.D., Paschim Medinipur                                    | Member           |
| 8. The Executive Engineer, P.H.E., Paschim Medinipur                                    | Member           |
| 9. The Executive Engineer, I.&W.Deptt., Paschim Medinipur                               | Member           |
| 10. The Principal Agriculture Officer, Paschim Medinipur                                | Member           |
| 11. The District Animal Resources Dev. Officer, Paschim Medinipur                       | Member           |
| 12. The District Disaster Management Officer, Paschim Medinipur                         | Member           |
| 13. The District Inspector of Schools (Primary), Paschim Medinipur                      | Member           |
| 14. The District Inspector of Schools (Secondary), Paschim Medinipur                    | Member           |
| 15. Hon'ble Members of Legislative Assembly<br>(All MLAs of Paschim Medinipur District) | Member           |

In the similar manner disaster management committees have been constituted at the sub-division level and block level to coordinate and supervise the disaster management operations.

#### **Sub -Divisional Disaster Management Committee**

- |   |   |                  |
|---|---|------------------|
| 1. Sub Divisional Officer                       | : | Chairperson      |
| 2. Sub Divisional Disaster Management Officer   | : | Convener /Member |
| 3. Subdivisional Controller of Food & Suppliers |   |                  |
| 4. Subdivisional Police Officer                 |   |                  |
| 5. Subdivisional Officer (Irrigation)           |   |                  |
| 6. Secretary, Red Cross Society                 |   |                  |
| 7. Subdivisional Agriculture Officer            |   |                  |
| 8. Assistant Engineer ( PWD )                   |   |                  |
| 9. Assistant Engineer (PWD Roads)               |   |                  |
| 10. Assistant Chief Medical Officer of Health   |   |                  |
| 11. O/C Civil Defence                           |   |                  |
| 12. Members of Legislative Assembly             |   |                  |
| 13. Chairperson of all municipality             |   |                  |
| 14. All B.D.Os & All Sabhapaties                |   |                  |

### **Block level Disaster Management Committee**

1. Sabhapati, Panchayat Samity : Chairperson
2. Block Development Officer : Secretary
3. Block Disaster Management Officer
4. Agriculture Development Officer
5. Block Medical Officer of Health
6. O/C of Police Station
7. Karmadhakshya of Tran Styae Samity
8. All Pradhans
9. All M.L.A in the block area
10. All block level officers of line departments

### **District Crisis Management Group (GO No.401 (35)-RL/O/I/7M-37/08 dated 03.03.2016)**

- 1) The District Magistrate will head the District Crisis Management Group. It will have the following members:
  - a) Commissioner of Police / Superintendent of Police
  - b) A representative of IB
  - c) Dy. Development Commissioner / Additional District Magistrate

Any other district officer, as appropriate may be co-opted as a member, Senior most officer of the Armed Forces and CAPFs posted in the district be also included in the Group. Where the NSG have been requisitioned for assistance, the NSG Task Force Commander may be co-opted as a member. Where NDRF is deployed or stationed, their representative may be co-opted as a member.

- 2) This Group will be responsible for on-scene management of the incident / emergency in the district level. All agencies will provide resources to this Group as required. Where a specialist Response team is deputed by the State / Central Group, this Group will normally abide by the advice of the said specialist Response team; but the ultimate decision will be that of the District / State Crisis Management Group.
- 3) There will be Control Room at the State level and at the district levels. The Control Room will be linked to the Control of the Ministry of Home Affairs by telephones, fax, interence and satellite phones.
- 4) Regular communication exercise shall be conducted with all stakeholders.
- 5) District Crisis Management Group will also meet periodically at least once in three months and as and when a crisis is at hand.
- 6) The District Magistrate will brief the media suitably from time to time regarding the progress in handling the contingency / emergency.

## **CHAPTER-5**

### **REHABILITATION AND RECONSTRUCTION PLAN**

Rehabilitation and reconstruction comes under recovery phase immediately after relief and rescue operation of the disaster. This post disaster phase continues until the life of the affected people comes to normal. This phase mainly covers damage assessment, disposal of debris, disbursement of assistance for houses, formulation of assistance packages, monitoring and review, cases of non-starters, rejected cases, non-occupancy of houses, relocation, town planning and development plans, awareness and capacity building, housing insurance, grievance redressal and social rehabilitation etc.

#### **5.1 Post Disaster Reconstruction and Rehabilitation**

Post disaster reconstruction and rehabilitation should pay attention to the following activities for speedy recovery in disaster hit areas. The contribution of both government as well as affected people is significant to deal with all the issues properly.

- Damage assessment
- Disposal of debris
- Disbursement of assistance for houses
- Formulation of assistance packages
- Monitoring and review
- Cases of non-starters, rejected cases, non-occupancy of houses
- Relocation
- Town planning and development plans
- Reconstruction as Housing Replacement Policy
- Awareness and capacity building
- Housing insurance
- Grievance redressal

#### **5.2 Administrative Relief**

The district is the primary level with requisite resources to respond to any natural calamity, through the issue of essential commodities, group assistance to the affected people, damage assessment and administering appropriate rehabilitation and restoration measures.

The district level relief committee consisting of official and non-official members including the local legislators and the members of parliament review the relief measures. Paschim Medinipur district is sub-divided into 4 sub-divisions i.e. Medinipur Sadar, Kharagpur, Jhargram and Ghatal. The head of sub-division is called the Sub-Divisional Officer (SDO) while development officer (BDO). When a disaster is apprehended, the entire machinery of the district, including the officers of technical and other departments, swings into action maintains almost continuous contact with each village in the disaster threatened area.

#### **5.3 Reconstruction of House Damaged / Destroyed**

House should be reconstructed in the disaster hit areas according to the following instructions:

- Owner Driven Reconstruction
- Public Private Partnership Programme (PPPP)

- Under the PPPP the house are reconstructed by the NGOs for the beneficiaries to be registered in the joint names of the husband and wife.
- All the houses should be insured.
- Owner Driven Reconstruction
- Financial, technical and material assistance provided by the Government.
- The designs for seismic reconstruction of houses provided by the Government.
- The material assistance provided through material banks at subsidized rates.
- Design of 20 model houses provided to the public to choose from with an option to have one's own design.

#### **5.4 Military Assistance**

If the district administration feels that the situation is beyond its control then immediate military assistance could be sought for carrying out the relief operation.

#### **5.5 Medical Care**

Specialized Medical Care may be required to help the affected population preventive medicine may have to be taken to prevent outbreak of diseases.

#### **5.6 Epidemics**

In the relief camps set up for the affected population, there is a likelihood of epidemics from a number of sources. The strategy should be to subdue such sources and immunize the population against them. The public health centres, health departments can practice vaccination drives, public awareness to drink boiled water, use chlorine tablets to purify the water sources.

#### **5.7 Corps Disposal**

Disposal of dead bodies is to be carried out as a part of the operation to prevent outbreak of epidemics. Minimum official requirements should be maintained as it is a very sensitive issue. The following points may be considered by the concerned authorities at the time of corpse disposal:-

1. Mass photographs of corpses,
2. Consent of the relatives or hand over them
3. Make panchnama of concerned localities.

#### **5.8 Salvage**

A major effort is needed to salvage destroyed structure and property. Essential services like communications, roads, bridges, electricity would have to be repaired and restored for normalization of activities.

#### **5.9 Outside Assistance**

During disaster situation, considerable relief flows in from outside, thus there is an immediate need to co-ordinate the relief flows so that the maximum coverage is achieved and there is no duplication of work in the same area.

#### **5.10 Special Relief**

Along with compensation packages, essential items may have to be distributed to the affected population to provide for temporary sustenance.

#### **5.11 Information**

Information flow and review is essential part of the relief exercise. Constant monitoring is required to assess the extent of damage, which forms the basis of further relief to the affected areas.

## **5.12 Social Rehabilitation**

### **Disabled persons**

- ☐ Artificial limbs fitted to affected persons.
- ☐ Modern wheelchairs, supportive devices provided.

### **Children**

- ☐ Orphaned children are fostered.
- ☐ Day centers set up
- ☐ Orphanages established.
- ☐ Child help lines established.

### **Paraplegics**

- ☐ Pension scheme introduced for paraplegics.
- ☐ Physiotherapy under continuous supervision of doctors.

### **Old Persons**

- ☐ Aged persons given pensions.
- ☐ Old Age Homes established.

### **Women**

- ☐ Pension sanctioned.

## CHAPTER-6

### SOME VALUABLE INFORMATION AND DISASTER SPECIFIC ACTION PLAN / STANDARD OPENING PROCEDURE FOR PASCHIM MEDINIPUR DISTRICT ADMINISTRATION

#### 6.1 FLOOD PRONE AREAS

The topography of the district is such that eastern part of the district is affected more than the western part of the district. The list of affected blocks and municipalities is as follows:

| Name of the Sub-Division | Vulnerable Blocks / Municipality | Partly affected Blocks / Municipality | Water logging Blocks / Municipality |
|--------------------------|----------------------------------|---------------------------------------|-------------------------------------|
| Ghatal                   | 1. Ghatal                        | 1. Chandrakona-I                      | 1. Chandrakona-II                   |
|                          | 2. Daspur-I                      | 2. Kharar Municipality                | 2. Khirpai Municipality             |
|                          | 3. Daspur-II                     | 3. Ramjibanpur Municipality           | 3. Chandrakona Municipality         |
|                          | 4. Chandrakona-I                 |                                       | 4. Ghatal Municipality              |
|                          | 5. Chandrakona-II                |                                       |                                     |
|                          |                                  |                                       |                                     |
| Kharagpur                | 6. Sabong                        | 4. Dantan-I                           | 5. Kharagpur-I                      |
|                          | 7. Pingla                        | 5. Dantan-II                          | 6. Kharagpur-II                     |
|                          | 8. Narayangarh                   | 6. Debra                              | 7. Keshiary                         |
|                          |                                  | 7. Mohanpur                           |                                     |
|                          |                                  |                                       |                                     |

**E) Hiring of boats & operating, regulating gates and fall boards**

- i. Quotation for hiring of boat will be invited and sent to the Division Office within 15TH. June-2016. Work order may be issued as and when situation arises(1 No. boat will be hired at Khanamohan).
- ii. Quotation for operating regulator gates & guarding and operation of fall boards will be invited and send to the Division Office within 15th June-2016. Work order may be issued as and when situation arises.

#### **F) Sealing of sluices, unauthorised pipes**

Work order for sealing of sluices and unauthorised pipes will be given by the concerned authority within 15.06.2016, (6 Nos. sluice required to be sealed in TE2H2 embankment).

#### **G) Flood fighting works**

Flood fighting works will be undertaken as and when necessary under prior intimation to The District Magistrate and obtaining permission from higher official of I&W Dte.

In the event of any breach, report will be at once transmitted to Sabhadhipati & Karmadakshya, Paschim Medinipur Zilla Parishad, Block Development Officer of concerned Block & Sub Divisional Officer of concerned Sub Division & Higher officer of I&W Dte. Repair of breach can only be taken with prior permission of Government with written requisition from The District Magistrate and Sabhadhipati to take up such work.

#### **H) Flood embankments:-**

##### **LATEST POSITION OF EMBANKMENTS**

The restoration works on the embankments of river Cossye which were severely damaged on flood-2013 has been mostly completed. Some further works are to be taken up & completed before onset of monsoon to bring the whole matter at affordable stage if necessary funds are available.

At Ghatal (I) Sub-Division breached portion of MC & DC embankment has been repaired. Further FPM work will be taken up soon.

I) Name of Embankments under West Midnapore Division:-

##### **a) Lachmapore Irrigation Sub-Division:-**

| Sl.No. | Name of River                          | Name of Embankment                          | Chain age From .... To | Length   | From-----To                      |
|--------|--|---|------------------------|----------|----------------------------------|
| 1      | Cossye (L/B)                           | Kalichandi flood Embankment (1st phase)     | 0.00 Km. to 7.10Km.    | 7.10Km.  | Srirampur to Amodpurpal          |
| 2      | Cossye (L/B)                           | Kalichandi flood Embankment (2nd phase)     | 0.00m. To 17.00km.     | 17.00km. | Patra Bridge to Kalinagar Bridge |
| 3      | Kalaichandi Khal (R/B)                 | Kalaichandi Marginal Embankment.(L/B & R/B) | 0.00Km. to 5.64Km.     | 11.28Km. | Patra Bridge to Elahiganj        |

**N) Vulnerable Zones**

The embankments under this Division have been severely damaged on flood 2013 on the river Cossyed for left and right embankments. Left embankment of Cossye near Balipata, ( Ch. 14.45 to 16.988) Km. raising and strengthing work required. Estimate has been done and submitted. One sluice at Balipata is required to control the flow water from land field area. Resection of Kalichandi Khal from Alahiganj to Cossye river is required to discharge heavy flood water. A detailed report for the above will be sent sortly for you information and alarming the peoples from administration levels. several numbers of rain cuts, vartical slips and damage of inspection path has been observed over the

embankments of TE1H1 from 15.20 Km. to 40.00 Km. & TE2H2 from 0.00 Km. to 14.00 Km. and TH3H2 from 14.00 Km. to 26.00 Km. All repairing works are taken up and will be completed before monsoon.

Under Ghatal Sub-Division, some portion of the embankment of C.C., D.C & M.C have been damaged during flood during 2013 as per available fund repair work have been taken up on emergency basis. Vulnerable points in Ghatal (I) Sub-Division are Harispur, Ajuria, Kalmijore, Khukrdaha- Majipara.

## 6.8 PREVENTIVE AND PREPARATORY MEASURES OF OF KALIAGHAI-KAPALESWARI-BAGHAI PROJECT DIVISION UNDER WESTERN CIRCLE – II, I&W DTE. TEMATHANI, SABONG, PASCHIM MEDINIPUR

The following arrangements have been programmed as **Disaster Management Plan 2016-17** under Kaliaghai-Kapaleswari-Baghahi Project Division, I & W Dte., Midanapore, Paschim Medinipur. :-

### A. PREVENTION:

#### a) PRE FLOOD INSPECTION REPORT:-

Pre-Flood Inspection Report prepared by the concerned Sub Divisional Officers under this Division prior to pre-monsoon rainfall started this year and according to that report Pre-Monsoon Works will be taken up and monitored so as to reduce vulnerability first and complete the works in time. Based on this report as well as previous year's experience, vulnerability mapping has been done as follows

| Name of Embankment                | Total Embkt Length (Km) | Weak / Vulnerable Zones (Length/Ch.) | Location (Mouza/Block) | Reason of its vulnerability (Slip/Ghoge/ Depression etc.) | Area/population likely to be affected (GP/Block) | Remarks  |
|-----------------------------------|-------------------------|--------------------------------------|------------------------|---|--|--|
| Kaliaghahi Left                   | 33.50                   | Nil                                  | -                      | -   | -  | strengthening & widening going on from Chaulkuri to Paharpur |
| Kaliaghahi Right                  | 4.00                    | Nil                                  | -                      | -   | -  |  |
| Kaleswari Left                    | 20.00                   | Nil                                  | -                      | -   | -  |  |

171.70

Besides above embankments, 4 Nos wooden Bridge at (1) Eral over Dokhali Khal (22°7'45.42"N, 87°35'10.59"E) (2) Dhamsai over Kharika Khal (22°6'19.17"N, 87°35'18.93"E) (3) Vigni Nischantapur over Sati Khal (22°11'35.26"N, 87°33'5.50"E) (4) Khirishtala Wooden Bridge over Ganapath Khal (22°11'19.14"N, 87°41'43.18"E) and Gates of Ganapath Khal outfall sluice (22°10'20.79"N, 87°42'41.75"E) are primarily considered as vulnerable and will be taken up for repair as pre-monsoon work.

**b) REMOVAL OF CROSS BUNDHS & FISHING PATTAS :-**

Cross Bundhs & Fishing Pattas on river bed are a vital part to create obstruction on drainage congestion of the rivers and channels mainly over river Kapaleswari & Kaliaghai at Sabang, Narayanbarh, Gobindapur & Gokulpur areas which should be removed within 15<sup>th</sup> June -2016 with the help of Administration and the Department by a joint programme by canvassing the local people and removing those obstruction. Kind Co-operations will be solicited from the local public representatives, B.D.O. of concerned block and administration to overcome the obstruction for the public interest and to avoid the flood situation on flood prone areas.

**c) WORKS ON VULNERABLE ZONES :-**

The Embankments under this Division was severely damaged by heavy rainfall during 2015 on the river Kaliaghai, Kapaleswari & other Khals. All of the repair/protection works taken up during 2016-17 have already been completed.

Since couple of years repair to damages of Ex-Zamindary embankments are not undertaken by the concerned Panchayet authorities. Works of some portions were taken up by the Department in the previous year as per availability of fund considering its vulnerability in Kalchiti, Jarua, Kharika, Chaulkuri Circuit & Deuli Embankment.

Important Sluice gates have already been repaired in the previous year, for about 80 Nos sluices out of total 101. Couple of sluice gates are yet to be repaired before monsoon. 4 Nos wooden bridge are to be repaired/reconstructed out of total 62. Other wooden bridges are either reconstructed or repaired within last 2-3 years and in workable condition. To reduce the frequency of repair of wooden bridge, composite bridge technology has been introduced since September, 2015.

## B. PREPAREDNESS :

### a) RIVER GAUGE & RAIN GAUGE STATIONS:-

Salient data of River Gauges/Rain Gauge maintained under this Division is as follows

| Sl. No. | Stations   | River       | P.D.L.(M)<br>G.T.S | D.L.(M)<br>G.T.S | E.D.L.(M)<br>G.T.S |
|---------|--|-------------|--------------------|------------------|--------------------|
| 1       | Bhakrabad (on Belda Road : 22.129039°N, 87.378866°E)             | Kaliaghai   | 7.95               | 8.40             | 8.85               |
| 2       | Dehati (on Patashpur Road : 22.090389°N, 87.494952°E)            | Kaliaghai   | 5.95               | 6.55             | 7.00               |
| 3       | Narayanbarh (Near Mohinibazar Bridge : 22.131670°N, 87.601270°E) | Kapaleswari | 4.72               | 5.33             | 5.94               |
| 4       | Kalimondop (22.160883°N, 87.703484°E)                            | Kaliaghai   | 4.40               | 5.00             | 5.33               |

River Gauge Stations are to be maintained by the K.K.B.Project Sub-Division No.- I (Bhakrabad & Dehati ) and K.K.B.Project Sub-Division No.III (Kalimondop & Narayanbarh). Rain Gauge Stations is to be maintained by the K.K.B.Project Sub-Division No.- III under this Division at Sabang.

River & rain Gauge Data will be prepared as per approved format of G.F.C.C. proforma and sent to the Higher Authority daily/weekly.

Weekly flood report is to be submitted by the concerned Sub Divisional Officer (K.K.B.Project Sub-Division No.III) as usual following last year's procedure.

### b) CONTROL ROOM:-

Control Room will be opened on & from 15.06.2016 like every year in the following offices as usual

- K.K.B. Project Sub Division No.-I, at Temathani, Sabang (22°13'16.90"N, 87°33'55.22"E), ph. 03222-248114
- K.K.B. Project Sub Division No.-II, at Sabang (22°10'36.85"N, 87°35'42.56"E), ph. 03222-249066 (presently closed due to obstruction of some villagers of Amarbarh since 5.03.2016)
- K.K.B. Project Sub Division No.III at Sabang (22°10'48.05"N, 87°35'38.79"E) ph. 03222-249329
- K.K.B. Project Division at Temathani, Sabang (22°13'31.11"N, 87°33'35.73"E) ph. 03222-248005

All the Sub-Divisional Officers will prepare the Roster Duty Chart for control room duty.

### c) STOCK POSITION OF EMPTY POLY BAGS & NYLON CRATES :

#### A. The Stock Position of Poly bags at different stations are as follows:

- a) K.K.B. Project Sub Division No.- I at Dehati Camp Office (22° 6'8.44"N, 87°29'33.30"E) = 26,800 nos.
- b) K.K.B. Project Sub Division No.-III at Sabang Office Complex (22°10'36.85"N, 87°35'42.56"E) = 18,000 nos.

#### B. The Stock Position of Nylon Crates at different stations as follows:

- a) K.K.B. Project Sub Division No.- I at Dehati Camp Office = 945 nos.
- b) K.K.B. Project Sub Division No.-III Sabang Office Complex = 490 nos.

### d) HIRING OF BOATS & OPERATING REGULATOR GATES AND FALL BOARDS :-

Decision for Hiring of boat will be taken as and when situation demands. Generally sluice gates are operated by the local farmers / Panchayet functionaries as per their requirement throughout the year. So, decision for engagement for operating regulator gates and guarding & operation of Fall Boards will be taken as and when situation arises.

**e) COLLECTION OF INFORMATION OF EVENT AND RESPONSE :-**

People of the locality and Panchayet Functionaries are generally main source of information during crisis period for the vast jurisdiction consisting of 171Km embankment, 101 Nos Sluice & 62 Nos Wooden Bridge. Communication Nos of control room for the respective area are available to the concern people of the locality. Besides, frequent visit of vulnerable zones are also been made by concerned Sub-Divisional staffs. As soon as information received it was attended for evaluation of its severity and taken up remedial reassures accordingly. Basically two types of events are to attend, firstly leakage through sluice gate and other is slip/slide/ghoge in embankment. But main problem in time of crisis is found to be false or truly speaking exaggerated report of happening.

**C. RELIEF**

**a) FLOOD FIGHTING WORKS :-**

Flood fighting works will be undertaken as and when necessary under prior intimation to District Magistrate after obtaining permission from the Higher Authority of the I & W Dte.

In the event of any breach, report will be at once transmitted to Sabhaddhipati & Karmadakshya, Paschim Medinipur Zilla Parishad & Purba Medinipur Zilla Parishad, Block Development Officer of concerned Block & Sub Divisional Officer of concerned Sub Division & Higher Authority of I & W Dte. Repair works will only be taken up with prior permission of the Higher Authority of the I. & W. Dte. and with written requisition from District Magistrate and Sabhaddhipati of concerned Area to take up such work.

Materials for Flood Fighting works i.e. Poly bags, Nylone Crate will be supplied from Stock kept in two vital position of entire jurisdiction i.e. at Sabang Godown & at Dehati Camp Office and if situation arises, further procurement will also initiated.

**D. RECOVERY**

The restoration works on the embankments, Inspection Path, Sluice, Bridge of river Kaliaghai, Kapaleswari and other Khals which will be damaged will be taken up case basis either during monsoon or after monsoon.

**6.9 ACTION PLAN OF FOOD & SUPPLIES DEPARTMENT**

Rolling reserve the stock of Rice will be build up at the Godowns of MR Distributors in the flood prone areas of the District.

**1. Rolling reserve a stock of Rice:-**

To build up rolling reserved stock of Rice (Procured Rice-Common boiled) at the Godowns of M.R. Distributors in the flood prone areas of the District.

The said Rice will be handed over to the S.D.O.s / B.D.O.s as and when necessary subject to its replenishment forthwith by special G.R. Rice of the same variety.

**2. Reserve a stock of K. Oil: -**

To build rolling reserve stock of K. Oil @ 5 K.L. / K. Oil Agent in the vulnerable pockets of this District.

The said reserved stock will be made available out of normal monthly quota by adjusting scale of distribution if necessary in consultation with the S.D.O.s. Necessary instruction to this effect will be issued to the Sub-Divisional Controllers.

#### **6.10 ACTION PLAN OF SUPERINTENDENT OF POLICE, PASCHIM MEDINIPUR**

- A) A District Police Disaster Management Group may be formed comprising :
- Addl. Supdt. of Police (HQ), Paschim Medinipur as Nodal Officer
  - All Zonal Dy.SsP, Paschim Medinipur
  - All CIs of Paschim Medinipur
  - All ICs/OCs of Paschim Medinipur
  - OC Control Room, Paschim Medinipur
  - RI, Paschim Medinipur
  - MTO, Paschim Medinipur
- B) ICs and OCs in co-ordination with BDMO, BDO will collect prior intelligence on probable disaster and cater the same to all zonal superiors and OC Control Room.
- C) After commission of disaster ICs/OCs of PSs shall take part in rescue operation in consultation with respective BDOs with available force and officers.
- D) ICs/OCs after consulting with zonal superiors and examining the gravity of disaster shall open a Control Room in the disaster affected places.
- E) Such Control Room shall have all facilities as per standard rule.
- F) Control Room shall have a GD Book for recording grievance and annals of loss of property of disaster affected people.
- G) Escort for food and other relief materials shall be provided by the respective ICs/OCs whenever sought for.
- H) Security to relief camp shall be provided by ICs/OCs whenever sought for.
- I) RI, Paschim Medinipur shall provide additional force and officer.
- J) MTO, Paschim Medinipur shall provide vehicle for movement of force and officer and escort of vehicle carrying relief materials.
- K) OC Control Room shall cater all information to all concerned.
- L) CIs shall personally supervise all activities of PSs regarding rescue operation, ensure that no untoward incident takes place at the time of distributing relief materials and ensure security of relief camp.
- M) Six (06) Teams to be formed for implementation the Disaster Management Plan of Police in combating against Flood / Cyclone :

##### **Team One**

To be placed at the PO for conducting of tasks relating to rescuing, shifting of injured persons to the hospitals and safe places.

##### **Team Two**

Will be placed at the place of shelter for the affected people and will be entrusted with the duty of looking after the servicing of food, drinking water and medicines to the rescued persons.

##### **Team Three**

To be placed at hospitals/health units etc. where injured to be shifted and ensure proper medical treatment of the injured persons.

12. On reaching of Disaster Management Group entire operation shall have to be handed over to them and necessary assistance, support to be provided whenever asked for.

**S.O.P ON FIRE FIGHTING**

1. OC of respective police jurisdiction shall inform Fire Fighting Agency, District Control Room and Nodal Officer of the District (Addl. SP (HQ) and rush to the PO instantly. He will alert all other members of the Disaster Management Team and will supervise the rescue operation. He will be responsible in sending an expert rescue team along with fire brigade to the place of occurrence and at the same time will activate all the units in sub-divisional and PS level District Management Team.
2. OC Control Room shall inform all adjoining PSs to remain alert.

3. OC of respective police unit will cordon the place of occurrence and prevent onlookers, relatives of injured persons, media personnel from entering into place of occurrence and causing hindrance to rescue operation.
4. OC shall conduct operation in search of injured persons and dead bodies.
5. OC Control Room shall alert all nearest hospitals including Midnapore Medical College & Hospital to remain ready with life saving equipments.
6. Four teams to be formed for
  - i) Team – 1 to be placed at the PO for conducting all tasks relating to rescuing, shifting of injured persons to the hospital, searching etc.
  - ii) Team – 2 to be placed at the hospital (where injured were shifted) to look after the injured persons.
  - iii) Team – 3 to be placed at District Control Room to cater various information.
  - iv) Team – 4 to be placed at District Headquarters to maintain liaison with various agencies.
7. Injured persons to be shifted to nearest hospital with facilities of caring burnt injuries quickly.
8. Nodal Officer of the district (Addl. SP (HQ), Paschim Medinipur shall inform to Disaster Management Group, 13<sup>th</sup> Bn. Barjora, Bankura for necessary action.
9. OC of respective Police Station shall canvass with the assistance of Public Alert System to prevent spreading rumour.
10. Dog Squad to be called for rescue of injured persons and dead bodies.
11. Forensic Team to be called to collect evidence from the place of occurrence.
12. On reaching of Disaster Management Group entire operation shall have to be handed over to them and necessary assistance, support to be provided whenever asked for.

**S.O.P ON COMBATING DISASTER IN THE VENUE  
OF MASS GATHERING**

1. OC/IC of respective PS under which jurisdiction the disaster took place shall immediately inform the Disaster Management Officer of Police as well as alert District Control Room and Nodal Officer of the district and seek for necessary reinforcement.
2. The Chief Supervisory Officer, who is in-charge of the venue will at once sensitize all the other subordinate officers in all ranks under him to pass on the necessary information to the ground level officers so that communication should reach to the top of the District Police Administration and at the same time all the field level officers and police personnel deployed in the venue. All of them should be well aware of the disaster and take necessary action according to the 'Master Plan' which will be evolved by the District Disaster Management Team of Police considering the emergency of the situation. The officers and police personnel in the venue of disaster should implement the 'Action Plan' so far as the work of the crowd choked up in a place of mass gathering is concerned.
3. The trespassed crowd should be channelized through ongoing ways only and at the same time emergency 'Entry & Exit' points should be made open for easy dispersion of crowd.
4. District Disaster Management Team of Police should communicate Health Department, Fire Department and other emergency services for their additional reinforcement in the disaster affected venue as early as possible.
5. The District Disaster Management Team of Police should contact with the Civil Defence Team and ask them to rush to the spot on emergency basis.
6. The Nodal Officer of Traffic, i.e. Dy. Supdt. of Police (Traffic), Paschim Medinipur will take initiative in making adequate traffic management in an around the vicinity of the disaster affected venue for smooth and early evacuation of the dispersed crowd from venue to safe place.
7. Dy. Supdt. of Police (Traffic), Paschim Medinipur in consultation with concerned RTA will also arrange for additional public conveyance adjacent to the venue.

8. District Disaster Management Team of Police will immediately contact with the top level District Civil Administration and ensure the safe shelter of the dispersed crowd in the place of evacuation which should be kept ready with food, drinking water and medical facilities.
9. Nodal Officer of the district i.e. Addl. Supdt. of Police (HQ), Paschim Medinipur will direct all the senior supervisory officers in the rank of Dy. Supdts. of Police and Inspectors to move to the place along with adequate officers and force under their administrative jurisdiction.
10. A Sub-Control Room should be opened on 24 hours basis with the facilities of public address system for making constant communication with the panicked members of the crowd in the venue. This group will also ascertain so that unnecessarily no rumour can be spread to arouse panic among the masses.
11. OC/IC of the concerned PS will take the responsibility to display the Bus/Train Time Table at important locations of the town/city nearby the venue.
12. Up-to-date train running, specially the trains running late, can be displayed at an appropriate locations to avoid crowd of the railway stations.
13. Senior officers deployed in the venue should ensure that 'Entry & Exit' points should not be blocked in any way as sometimes information seekers often use to assemble the 'Entry/Exit' points and eventually block the movement of the other visitors.
14. RI, Paschim Medinipur will mobilize adequate officers and force to the affected place from District Police Lines as well as from other units of the district.
15. MTO, Paschim Medinipur will provide adequate number of vehicles required for mobilization of the officers and force.
16. Forensic Team to be called to collect evidence from the place of occurrence.
17. Nodal Officer of the district, i.e. Addl. Supdt. of Police (HQ), Paschim Medinipur shall inform to Disaster Management Group, 13<sup>th</sup> Bn. Barjora, Bankura for necessary action.
18. Four teams to be formed for
  - e) Team – 1 to be placed at the PO for conducting all tasks relating to rescuing, shifting of injured persons to the hospital, searching etc.
  - f) Team – 2 to be placed at the hospital (where injured were shifted) to look after the injured persons.
  - g) Team – 3 to be placed at District Control Room to cater various information.
  - h) Team – 4 to be placed at District Headquarters to maintain liaison with various agencies.

All the OCs/ICs of PSs of Paschim Medinipur district were directed to submit their Disaster Management Plan, 2016-17 locally to prepare and submit. Accordingly, all the OCs/ICs have chalked out individual plan for their respective PS to combat any type of natural disaster or calamity, such as flood, cyclone at the time of emergency situation. PS wise Disaster Management Plan is being furnished below:

## 6.11 ACTION PLAN OF FPI & HORTICULTURE DEPARTMENT

Paschim Medinipur District is rich in Horticultural crops. All types of Horticultural crop are grown in this district. Product of Horticulture is prime source of our food chain and this district produces most of the crops like-Vegetables mainly grown in Garhbeta-I, II & III, Daspur-I & II, Gopiballavpur-I, Kharagpur-I, Salboni, Keshpur & Keshiary Block, Flowers- mainly grown in Debra, Daspur-I & II, Khargpur-I & II, Sabang, Pingla, Narayangarh, Gopiballavpur-I, Fruits- mainly grown in Garhbeta-I, Garhbeta-II, Garhbeta-III, Jhargram, Kharagpur-II etc. Spices- most of the block of this district, Cashewnut-in Garhbeta-I, II & III, Jhargram, Salboni, Nayagram, Gopiballavpur-I, Jamboni, Binpur-I, Sankrail etc.

Paschim Medinipur District ranks 1<sup>st</sup> position in Cashewnut Production in this state. Betel vine is another economical crop in this district.

This district comprises of Head Quarter Office at Midnapore, 2 Nos. Sub-Divisional offices at Jhargram and Kharagpur & 12 nos. field Consultant posted at blocks.

Vegetables and Flowers are remunerative crop and cultivation of these crops helps up-liftment of economic status in a short period. So, Horticultural planning is made in such a way by which the adverse situation affected by flood and drought can be combated.

### **To overcome the adverse effect of Flood:**

1. Seed showing of leafy vegetable for immediate harvesting like- Amaranthus, Palak, Radish, coriander, Methi etc.
2. Other short duration direct showing crops like Cowpea, Ridge Gourd, Pumpkin, Cucumber, Bottle Gourd etc. are suitable after flood.
3. In heavy flood affected saline area Beet Root, Ridge Gourd and Beans crops are suitable for cultivation.
4. After flood clay deposited soil are suitable for vegetable cultivation and deposited sand will be removed by means of manually or mechanically.

### **To overcome the adverse effect of Drought:**

1. Digging of water Harvesting Structure like Ponds, Tube well and other irrigation sources.
2. Inspiring for installation of drip irrigation for all horticultural crops.
3. Plantation of Dry land Horticultural Crop like-Cashew, Ber etc.
4. Providing mulching to the base of the crop by means of organic or inorganic.

### **Action to be taken by the farmers in Flood:**

1. Crops are grown in furrow and ridge bed method.
2. Well drainage system throughout the plot.
3. Seedling production in raise bed protected by polythene for rain water.
4. After flood immediate application of fungicide to the crop.
5. Seeds are sowing in line in nursery and maintain proper spacing to avoid rotting of the crop.
6. In saline belt only use saline resistant crop like-Beet Root, Ridge gourd, Beans, Cowpea etc.

### **Action to be taken by the farmers in Drought:**

1. Planning for less water requirement crop.
2. Planting of crop with enough organic matter with poly mulching.
3. Sprinkler or Drip irrigation method is most suitable for drought prone area.
4. In drought prone area shade nets are beneficial for vegetable and flower production.

**Measure to be taken by F.P.I.& Horticulture Department in Flood:**

**1. Distribution of Vegetable Seed Kit:**

**KIT-I:**

| SL No. | Name of the Vegetable Seeds | Quantity |
|--------|-----------------------------|----------|
| 1      | Amaranthus                  | 100g     |
| 2      | Beans                       | 500 g    |
| 3      | Brinjal                     | 10 g     |
| 4      | Beet                        | 250g     |
| 5      | Knolkhol                    | 50 g     |
| 6      | Carbendazim                 | 250 g    |
| 7      | Neem based Insecticide      | 250 ml   |

**KIT-II:**

| SL No. | Name of the Vegetable Seeds | Quantity |
|--------|-----------------------------|----------|
| 1      | Coriander                   | 100g     |
| 2      | Carrot                      | 500 g    |
| 3      | Brinjal                     | 10 g     |
| 4      | Radish                      | 250g     |
| 5      | Okra                        | 100 g    |
| 6      | Carbendazim                 | 250 g    |
| 7      | Neem based Insecticide      | 250 g    |

**2. Distribution of Flower Kit:**

**KIT-III:**

| SL No. | Name of the Ingredient       | Quantity |
|--------|------------------------------|----------|
| 1      | Neem Cake                    | 10 kg    |
| 2      | Difenokonazole+ Azoxystrobin | 100 ml   |
| 3      | Biological Insecticide       | 1 kit    |

**3. Distribution of Betel vine Kit:**

**KIT-IV:**

| SL No. | Name of the Ingredient | Quantity |
|--------|------------------------|----------|
| 1      | Neem Cake              | 10 kg    |
| 2      | Carbendazim + Mancozeb | 250 g    |
| 3      | Neem based Insecticide | 250 ml   |

**Total nos. kit:**

| SL No. | Name of crop | Quantity        |
|--------|--------------|-----------------|
| 1      | Vegetable    | 50,000 nos. kit |
| 2      | Flower       | 10,000 nos. kit |
| 3      | Betel vine   | 3,000 nos. kit  |

**6.13 ACTION PLAN OF PUBLIC HEALTH ENGINEERING (CIVIL & MECHANICAL DIVISION)**

THE FOLLOWING MEASURES ARE USED TO BE TAKEN BY P.H.E.D. (CIVIL & MECHANICAL) IN THE DISTRICT OF PASCHIM MEDINIPUR IN THE LIGHT OF DISASTER MANAGEMENT FOR THE ENSUING FLOOD / DRAUGHT LIKE SITUATION IF REQUIRED.

- 1) THERE IS A MOBILE TREATMENT UNIT (M.T.U.) (HAVING CAPACITY TO PRODUCE 350 ML. AND 500 ML. WATER POUCHES @ 4000 NOS. PER HOUR) UNDER CONTROL OF THE EXECUTIVE ENGINEER, MIDNAPORE MECHANICAL DIVISION, PHE DTE. WHERE FROM WATER POUCHES CAN BE SUPPLIED AS PER REQUIREMENT THROUGHOUT THIS DISTRICT DURING THE TIME OF DRAUGHT / FLOOD PRONE AFFECTED AREAS.
- 2) SINKING OF NEW INDIA MARK-II TUBE WELLS AT DIFFERENT DRAUGHT LIKE SITUATION / FLOOD AFFECTED AREAS ARE TO BE TAKEN UP.
- 3) REPAIRING OF TUBE WELLS IN DRAUGHT LIKE SITUATION / FLOOD AFFECTED AREAS ARE TO BE TAKEN UP IN EMERGENCY CASE AS BECAUSE USUALLY IT IS TAKEN UP FROM BLOCK CONCERNED.
- 4) DISINFECTION OF TUBE WELLS IN DRAUGHT LIKE SITUATION / FLOOD AFFECTED AREAS DURING AND AFTER RETARDATION OF FLOOD / CONTAMINATED WATER IN CONSULTATION WITH THE CONCERNED B.D.O. AND THE S.D.O. IS TO BE MADE.
- 5) RESTORATION WORK OF DAMAGED / WASHED OUT PIPELINES OF EXISTING PIPE WATER SUPPLY SCHEMES (IN CASE OF FLOOD) AND INCREASING OF THE TIME OF PUMPING HOURS IN CASE OF DRAUGHT IS TO BE TAKEN UP.
- 6) SUPPLY OF WATER BY TRUCK / VEHICLE MOUNTED WATER TANK AT DIFFERENT VULNERABLE / WATER SCARCITY AREAS AS DESIRED BY DISTRICT ADMINISTRATION IS TO BE TAKEN UP.
- 7) OPENING OF CONTROL ROOM AT DIVISIONAL HEADQUARTER AS PER DIRECTION OF DEPARTMENTAL HIGHER AUTHORITY IS TO BE TAKEN UP.

IN THIS REGARD, THUS ACTIVE PARTICIPATION IS FOLLOWED BY THESE LIAISON OFFICERS IN THIS DISTRICT AS WELL AS SUB-DIVISIONAL HEADQUARTER. THE NAME OF OFFICIALS ALONG WITH MOBILE NO. ARE AS UNDER-

| NAME & ADDRESS OF OFFICE   | NAME OF LIAISON OFFICIALS  |

**INFORMATION REGARDING PREPAREDNESS FOR FLOOD, CYCLONE ETC 2016 – 2017 OF ARD  
DEPARTMENT OF PASCHIM MEDINIPUR.**

**1. Animal Population with categories (As per Livestock Census 2007)**

| Cattle  | Buffalo | Sheep  | Goat    | Pig   | Backyard & Organized Poultry | Duck   |
|---------|---------|--------|---------|-------|------------------------------|--------|
| 2387937 | 67150   | 116575 | 1392049 | 72532 | 6038106                      | 763243 |

**2. Dealer of Feeds/Fodder**

Feeds: EPIC West Bengal Dairy, & Poultry Dev. Corp., Salboni Feed Plant, Salboni, Paschim Medinipur. Dr. Kuldeep Dey In-Charge, Salboni Feed Plant. Mob: 9432260552

Fodder: Composite State Animal Husbandry Farm, Salboni, Paschim Medinipur.

1. List of Cow Sheds : Not available
2. Site camps with volunteers: There is no volunteers for site camp.
3. Programme for mass vaccination: Sufficient vaccine available with the BLDO of the respective blocks. Programmes for vaccination will be taken within short notice.
4. Train the taskforce in respect of : Block Livestock Dev. Officer, Vety Officer, use of Medicine. Pharmacist, LDAs & Prani bandhus and Prani Mitras are there who are trained on use of medicine. So there is no necessity for further training of the taskforce in respect of use of medicine. District level, Sector level and Block level team were already formed in respect of animal health coverage.
5. Disposal of carcass : Engagement of team of Civil defense / Organization / Panchayat bodies/Doom may be done with the financial support from the general Administration & technical guidance of ARD deptt.
6. Possible problems related to different hazards
  - i) The Block Livestock Dev. Officer, (the Head of the department of the block of the DDO) has no bank account.
  - ii) The maximum post of Livestock Dev. Assistant (the GP level employee), UDC, LDC, Vety. Field Supervisor & Vety. Pharmacist under Block Livestock Dev. Officer are lying vacant

**Biological Disaster Action Plan Regarding Management of Livestock during Disaster in the District  
Paschim Medinipur**

Being nearer to the coastline, the District Paschim Medinipur West Bengal is vulnerable to the impact of tropical cyclone both pre and post monsoon. The District is also very flood and draught prone.

Biological disaster have been considered a risk for year because of the potential health, the economic, ecological and social impact of many animal disease specially zoonosis coupled with the risk of their spreading widely across Geographical Region from effected area. The Biological hazard is defined as a process of phenomena of organic origin of conveyed by the Biological Vectors including exposure to pathogenic micro organism, toxin and bio-active substances that may cause loss of life, injury illness, or other health impact, property damage loss of livelihood and services, social and economical disruption or environmental damage.

The ARD authority is to prepare its disaster reduction plan at all technical and administrative level of veterinary services and forge partnership with other related sectors. Ensuring that they support and give priority to resolving the problem effecting the animal health protection at II level starting from primary production infrastructure and the livestock industry.

Considering the above facts the work plan in respect of Animal Resources Development Department may be divided in action phases every year.

- A. Preparedness in anticipation
- B. Immediate action
- C. Delayed action

**A. Preparedness in action:**

- a) Advance planning to keep all departmental staff alert / sensitize before the onset of the season and their subsequent deployment in the eventuality should be made through deployment planning and necessary strengthening.
- b) Arrangement for procurement and storage of essential inputs like medicines, vaccines, disinfectants, etc. To be made to save the affected livestock.
- c) Animal in endemic zone, to be vaccinated against different bacterial and viral diseases as the case may warrant, e.g. Anthrax, HSBQ, RD, FC, FP, etc.
- d) Identification of area of risk, vulnerable areas, assessment of risk and vulnerability and rescue centre of livestock.
- e) Arrangement to be made for opening control room at district / subdivision / block level and veterinary team to be kept ready to proceed promptly along with medicine.
- f) Disease like HPAI with an inherent zoonotic potential has been kept under constant surveillance.
- g) Deputy Director of Agriculture of the district and cattle feed milling plant (Salboni Feed Plant) to be requested to keep reserve stock of paddy straw and concentrate feed, feed block respectively for the anticipated calamity if any.
- h) Finalization of rate for procurement of paddy straw locally by inviting quotation at block / district level.
- i) District administration authority and Panchayat functionaries at various level to be contacted in regular manner to have updating information for calamities and guidance to aware the farmers.

**B. Immediate action:**

- a) To open control room at District / Sub-Division / Block / GP level and kept the mobile on.
- b) Arrangement of immediate relief in terms of emergency aid through Veterinary Assistance Teams (VATs), temporary makeshift shelters and emergency provision for water and feed.
- c) Assess the requirement of feed and fodder, medicine, vaccine and communicate the same to the District / Directorate Head Quarter.
- d) To open animal health camps immediately at the affected area near the temporary shelters of livestock with medicine and vaccines and access the loss and communicate in respect of animal resources.

- e) Arrangements of need based relief materials for the affected livestock with the help of local administration and panchayat functionaries.
- f) Technical guidance for initiation of disposal of carcass to the removal team of civil defence / organization / panchayat bodies / DoM with a financial support from the general administration.

**C. Delayed action:**

- a) Animals in endemic zones revaccination against different bacterial and viral diseases to be carried out as the case may be.
- b) Care should be taken to combat the post calamities various diseases of livestock which will affect their health and production.
- c) Economic rehabilitation of affected livestock farmers with small units of poultry, piggery, goatery, dairy may be provided after the calamity.
- d) Model livestock scheme to be implemented in consultation with general administration / panchayat functionaries.

In view of the importance of systematic implementation of biological disaster management, the full range of activities is required for the prevention, preparedness, control of zoonosis, response and recovery of disaster with the proper and cordial cooperation of three tier panchayat system, department of public health and general administration

## **6.15 ACTION PLAN OF AGRICULTURE**

Paschim Medinipur District is located in the southern part of West Bengal between 22°57'10" and 21°36'35" North latitude and between 88°12'40" and 86°33'50" East longitude. The geographical area of the District is 929528 ha. It is bounded by Bankura District in Northern side; Hooghly in the North-Eastern side; Purba Medinipur District in the Eastern & South-Eastern side; Balasore & Mayurbhanj District of Orissa in the Southern side & Singhbhum District of Jharkhand in the Western side.

The District comprises of 4 sub-divisions – Medinipur Sadar(6 Blocks), Kharagpur(10 Blocks), Jhargram(8 Blocks) & Ghatal(5 Blocks).

More than 80% of the total population lives in rural areas of the District & Economy depends on Integrated Agriculture & small scale industries.

The District possesses diversified ecosystem having different vegetation, soil types, climatology & geomorphology.

The important rivers like the Kangsabati, the Silabati, the Subarnarekha, the Dulang, the Tamal, the Keleghai & their tributaries flow through the District & enrich the cropping system by depositing fertile loam or sandy loam soil during rainy season.

The major crops grown in the District are Aus, Aman & Boro paddy, Wheat, Potato, Mustard, Til, Groundnut, Vegetables, Pulses, Watermelon, Maize, Sugarcane, Jute, Betel leaves, Matstick etc.

Net cropped area of the District is about 595210 ha. Gross cropped area 101514 ha Having 170.55% cropping intensity. The District faces both flood & Drought & sometimes one is followed by another in a same year. Ghatal & a part of Kharagpur sub-division have flood prone areas of about 142647 ha. As well as Jhargram, Kharagpur & Medinipur Sadar sub-division have Drought prone area of about 335248 ha. The average rainfall of the District for last 25 years is 1538.0 mm. but it is the experience of the people that the District faces scattered & uneven distribution of rainfall almost in every year & the monsoon showers come always in late.

The Disaster Management plans in Agricultural sector means the contingent crop planning in Kharif crops during Kharif season to meet the unforeseen contingencies like flood, drought etc. during the growing season of crops.

Agriculture largely depends on nature & contingent crop planning is an integral part of agricultural production planning. The objective of the contingency crop planning is to provide ways & means to tackle the situation due to flood or drought or any other natural calamity.

To combat the situation whatever it may arise due to flood or drought the following action plan is to be adopted:

#### **To overcome the adverse effect of Flood**

Actions to be taken by farmers.

1. Staggered sowing of paddy seed in seed bed at 10 days interval.
2. A place of higher elevation to be chosen for raised seed bed.
3. To reduce the detrimental effect of sand deposition in cultivated land, sufficient organic matter is to be applied.
4. If sand deposition is high, it is to be removed manually or mechanically.
5. Where there is no time for rice cultivation-
  - a) Kalai(Variety-Sarada, Goutam, Sulata etc.) may be grown in the post-Kharif season.
  - b) Toria, yellow sarson, lentil, gram, mustard & sunflower etc. may be grown early in the Rabi season.

#### **To overcome the adverse effect of Drought**

A. Actions to be taken by the departmental officers –

- a) Joint monitoring by District level officers of the department of Agriculture, Irrigation & Waterways and WRI&D to be done to look into the real situation and to find out the ways for supplying Irrigation water from all Irrigation sources and ensuring it at grass root level in the blocks.
- b) Water harvesting structures like pond, dugwell etc. to be excavated for storing rain water by various departments.

B. Actions to be taken by the farmers:

- a) For harvesting rain or runoff water, earthen bunds are to be constructed around the individual plot.
- b) Application of organic manure to increase the water holding capacity of the soil.
- c) Community nursery seed bed of rice is to be done near a water source at least a month before normal seed bed preparation.
- d) Staggered sowing of rice seed in seed bed at 10 days interval.
- e) Closer spacing with higher number of seedlings per hill are to be practiced.
- f) Direct seeding of rice through zero/minimal tillage machine.
- g) Cultivation of arhar, blackgram, groundnut & maize or mixed cropping of maize & arhar in high lands.
- h) Mechanical weeding in rice field & use the uprooted biomass of weeds as soil mulch or use other mulching materials like straw in rice field.
- i) Not to apply Nitrogenous fertilizer in the soil to restrict weed growth. Foliar spray of Urea or DAP @ 1-2% may be applied at critical growth stages of the crop.

#### **Measures to be taken by the Agriculture department through Govt. schemes:**

A. Paddy: To keep the production of Aman paddy stable following steps will be taken-

- 1) Distribution of short duration paddy minikit(var-Kalyani-2, Sneha, Hira, Kshanika, Aditya, Purba, PNR-546, Kalinga-1, Annda etc.) among farmers.

| No. of unit | Seed/Unit | Area to be covered(ha.) |
|-------------|-----------|-------------------------|
| 120000      | 10 Kg.    | 30000                   |

2) Fertilizer as booster dose-

| No. of unit | Fertilizer per unit    | Area to be covered(ha.) |
|-------------|------------------------|-------------------------|
| 300000      | Urea 10 Kg., MOP 5 Kg. | 30000                   |

3) Growth regulator-

| No. of unit | Growth regulator per unit | Area to be covered(ha.) |
|-------------|---------------------------|-------------------------|
| 120000      | n-Tricontanol@50ml/phial  | 30000                   |

4) Seed treating chemical-

| No. of unit | Seed treating chemical per unit    | Area to be covered(ha.) |
|-------------|------------------------------------|-------------------------|
| 120000      | Thiram/Tricyclazole75%WP@50gm./PKT | 30000                   |

5) Pest repellent-

| No. of unit | Pest repellent per unit         | Area to be covered(ha.) |
|-------------|---------------------------------|-------------------------|
| 120000      | Azadiractin10000ppm@500ml/phial | 30000                   |

6) Insecticide(for BPH & others)-

| No. of unit | Insecticide per unit | Area to be covered(ha.) |
|-------------|----------------------|-------------------------|
| 35000       | Acephate@250gm/pkt   | 20000                   |

B. Staggered seed bed at Govt. Farm & Farmers' plot-

| Place         | Seed/unit | Area of seed bed(ha.) | Area to be covered(ha.) |
|---------------|-----------|-----------------------|-------------------------|
| Govt. Farm    | 50Kg.     | 12x5x50Kg.=6 ha.      | 60                      |
| Farmers' plot | 25Kg.     | 20000x25Kg.=1000 ha.  | 10000                   |

C. Storing of paddy straw in different Govt. Farms for cattle feed- 10 tonnes.

D. Rabi crops: To achieve the sustainable production of Rabi crops following Minikits will be distributed among the farmers.

i. Rape & Mustard

| No. of unit | Seed/unit           | Fertilizers/Others/unit | Area to be covered(ha.) |
|-------------|---------------------|-------------------------|-------------------------|
| 25000       | B-54/Panchali: 3Kg. | NPK102626@15Kg.         | 10000                   |
| 25000       | B-9: 3Kg.           | NPK102626@15Kg.         | 10000                   |

ii. Kulthi

| No. of unit | Seed/unit | Fertilizers/Others/unit | Area to be covered(ha.) |
|-------------|-----------|-------------------------|-------------------------|
| 125000      | 10Kg.     | R.Culture @ 400gm.      | 5000                    |

iii. Khesari

| No. of unit | Seed/unit           | Fertilizers/Others/unit | Area to be covered(ha.) |
|-------------|---------------------|-------------------------|-------------------------|
| 7500        | Nirmal/Ratan: 12Kg. | R.Culture @ 400gm.      | 1000                    |

iv. Wheat

| No. of unit | Seed/unit                    | Fertilizers/Others/unit | Area to be covered(ha.) |
|-------------|------------------------------|-------------------------|-------------------------|
| 37500       | PBW343/sonalika/UP262: 15Kg. | NPK102626@25Kg.         | 5000                    |

v. Potato

| No. of unit | Seed/unit         | Area to be covered(ha.) |
|-------------|-------------------|-------------------------|
| 75000       | K-pokhraj: 300Kg. | 10000                   |
| 75000       | K-Jyoti: 300Kg.   | 10000                   |

vi. Groundnut

| No. of unit | Seed/unit            | Fertilizers/Others/unit | Area to be covered(ha.) |
|-------------|----------------------|-------------------------|-------------------------|
| 37500       | AK-12-24/JL24: 15Kg. | R.Culture @ 400gm.      | 5000                    |

vii. Boro Paddy

| No. of unit | Seed/unit | Area to be covered(ha.) |
|-------------|-----------|-------------------------|
| 150000      | 10Kg.     | 30000                   |

It is hopefully expected that the Department of Agriculture, Govt. of West Bengal will be in a position to tackle the situation due to disaster in the District of Paschim Medinipur like previous years.

#### 6.16 ACTION PLAN OF AGRI-MECHANICAL DIVISION:

Midnapore (Agri- Mech) division, Paschim Medinipur is looking after the running and maintenance of 284 nos. Govt. owned and operated River Lift Irrigation Schemes and 169 nos. of Handed over River Lift Irrigation (RLI) Schemes. Out of this 284 nos. R.L.I Schemes, 84nos. are electrically operated and the remaining 200 nos. R.L.I Schemes are diesel operated. The Total cultivable command area of all these R.L.I Schemes is to the tune of 26,000 Ha (approximately) and the potential created due to installation of these schemes is approximately 60,000 Ha yearly.

As the discharge capacity of the diesel pump sets is reduced from the rated capacity due to their (20-25 years) ages resulting in less coverage of irrigation by the old and inefficient diesel pumping sets, the WRID Department started to convert all the diesel operated RLI Schemes to the electrically operated one. The proposed conversion/renovation of 1 no such diesel operated R.L.I Schemes will create an opportunity to bring back nearly 100-120% of the cultivable command area under assured irrigation. the conversion will facilitate easier operation and maintenance of the pumping sets, and will have beneficial effect on the environment besides avoidance of the hazards involved in the carriage & storage of highly inflammable H.S.D and lube oil required for the operation of diesel engine pumping sets.

**Existing Structures:-** RLI Structures(Govt Owned) are as follows:-

| Sl. No. | Type of structure | Nos. | Name of Block    | CCA in Ha | Remarks |
|---------|-------------------|------|------------------|-----------|---------|

**Ongoing Schemes:-**

| Sl.No. | Type of structure | Nos.  |      |      | Name of Block  | CCA in Ha | Remarks |
|--------|-------------------|-------|------|------|--|-----------|---------|
|        |                   | Major | Midi | Mini |  |           |         |
| 1      | RLI               | 91    | 36   | 9    | Different blocks of Paschim Midnapore except Ghatal S/Divn | 7080      |         |

**Plan for Management:-**

- 1) As all the RLI Schemes(Govt. Owned ) are operated by the Operator cum Mechanic (OCM )/Assistant Operator(A.O.) who are posted in the above noted blocks under the BDOs of the District can be utilized for any disaster like situation.
- 2) The 4 nos. Assistant Engineer(AM)/(AE) of 4 nos. Sub Division and the Executive Engineer(AM) Midnapore(AM) Division can be contacted for the disaster management. Their Phone Nos. are as follows:-

| Designation   | Phone nos.                       |
|---|----------------------------------|
| Assistant Engineer(AM) Jhargram-I(AM) Sub Division  | 03221 255163                     |
| Assistant Engineer(AM) Jhargram-II(AM) Sub Division | 03221 255163                     |
| Assistant Engineer(AM) Midnapore (AM) Sub Division  | 03222 275579                     |
| Assistant Engineer(AE) Kharagpurl(AE) Sub Division  | 03221 275579                     |
| Executive Engineer(AM) Midnapore (AM) Division      | 03222 275765 /<br>(M) 9830220128 |

**6.17 ACTION PLAN OF AGRI-IRRIGATION**

Minor Irrigation plays a vital role in the agricultural development of the state. Both surface as well as ground water are being harnessed for implementation of M.I.Schemes in various parts of state. However, surface water is more significant in those parts where ground water availability is less favourable.

A considerable number of Tube Well and surface flow irrigation schemes are in operation under Midnapore (A-I) division of water Resources Development Directorate. There are three sub-divisions under the division covering 16 (Sixteen) no. of blocks of Paschim Medinipur District. The Sub-divisional offices are located in Midnapore and Belda.

**Location of sub-Division offices:**

1. Office of the Assistant Engineer (A-I) Midnapore (A-I) sub-division, Narampur (Near District Jugges' Court), Post- Midnapore and Distt. Paschim Medinipur ph. No. 275465.
2. Office of the Assistant Engineer (A-I) Belda (A-I) Sub-division, Belda, Post- Belda, Dist. – Paschim Medinipur. Ph. No.03229-255264.

| Designation  | Contact details                        |
|--|--|
| Excutive Engineer, Agri-Irrigation, Paschim Medinipur      | 8584807922, 9434455373<br>03222-275465 |
| Asstt. Engineer, Belda (A-I) Sub-division                  | 03229-255264                           |
| Asstt. Engineer Midnapore (A-I) sub-division (officiating) | 03222-275465                           |

#### Measures to be taken for prevention of damages in Minor Irrigation Installations:-

1. Since most of the schemes are electrically operated, during pre-monsoon cyclone etc. necessary alertness to be ensured for causing temporary disconnection of power supply to the schemes to prevent loss of life by electrical short circuit etc.
2. Pre-Monsoon cyclonic damages of command area should also be prevented which may ultimately cause damages to different spout chamber, Distribution chamber, existing Pipe line etc.

#### Details of Schemes:
